

## **Fresh Look Property Services Announces Availability Of Handyman Services**

*November 02, 2018*

November 02, 2018 - PRESSADVANTAGE -

Dominic Moulton at Fresh Look Property Services is happy to announce that they are now offering a full suite of handyman services in South Portland, Maine and surrounding areas. Those living in South Portland can now enjoy the peace of mind that a handyman with over 30 years of experience is available for any of their home repair needs.

Dominic had this to say about this announcement, "I was running all over town one day, doing home repairs for my friends and family. They were all quick fixes, but they had wanted to leave the job to an expert, rather than try to fix it themselves and make it worse. After losing a full day of business to doing favors, which I was happy to do, I realized that this should be a part of my business. So, in addition to major projects, I'm now offering simple home repairs and installations through my handyman services."

Some of the services that the company already offers include: building, remodeling, villa, doors, and windows. Dominic has also been known to hand-build cabinets for kitchens and bathrooms for remodeling projects. As such, he also hand-crafts doors and the moulding for windows.

Paul Smithson, of Portland, has used Fresh Look Property Services for two remodels. Recently, he was moving his standing piano from one room to another, lost his grip, and it fell into the wall. He called Dominic to see if he could help and Dominic came right out. Paul explains, "There was a huge hole in the drywall and the door trim had a huge dent in it. This seemed like a huge fix to me. I thought Dom was going to have to tear down the whole wall and the door frame and rebuild it. I told him what happened on the phone, and he came with some materials and was completely done with the repair in just a couple of hours. He came back the next day after it dried to put a fresh coat of paint on. I am so grateful that he was willing to help!"

Handyman services often include a wide, difficult-to-narrow variety of services. Some companies offer simple repairs - such as drywall repair, window repair, window jam, door jam, lock jam, and so on. Many companies avoid any repairs that require electrical work or plumbing work, but not Fresh Look Property Services in Portland, Maine. They offer all handyman services as needed.

Dominic stated that he wanted the residents of the Portland community to feel like they could have someone to rely on for their home repair needs. Though he had learned a lot about repair at a young age, even starting his building and remodeling business at 22, he still recognized that the services he offered required a lot of knowledge. "Some people might try to repair something themselves and get injured. I wanted to make sure that no one died trying to save a buck or because the services simply weren't available in Portland."

Hannah Pupillo bought a dishwasher that she thought would be easy to install. Once she saw how many parts and pieces had to come together, she tried to find another solution. "I googled 'handyman near me' and didn't come up with much, sadly. I called a few businesses on the Yellow Pages list, but they had all gone out of business or stopped offering handyman services. I had worked with Dominic on my bathroom remodel, and he swapped out everything, so I knew he might be able to help me with the dishwasher. I called him and told him about my situation. He came out the next day and was done within an hour. I'm very glad I called Dom when I did. I could have wasted a lot of my time otherwise!"

Handyman services can even cover electrical work and plumbing. A homeowner should always call an electrician or plumber if there is a serious problem, but if something needs to be installed, such as a dishwasher or a ceiling fan, they shouldn't hesitate to call a handyman first.

Roger Beck needed to have a garage door opener installed and he didn't have the time to do it himself. His first instinct was to ask Siri. He says, "I really didn't have the time, but in reality, I didn't have the patience either. I unpacked everything and thought I might do it myself. In minutes, I had cut myself on an exposed nail. So, I said to Siri, 'call me a handyman Portland Maine,' while I washed my hands. She didn't understand me correctly and searched the web. Fresh Look Property Services was the first to come up on the list. I called them and spoke to Dominic. He said this wasn't a service they normally offer, but he came out anyway and installed the garage door in an hour. I am very grateful for Dominic's help and my garage door works great."
