

## **Fresh Look Property Services Offers Junk Removal In Maine**

*November 02, 2018*

November 02, 2018 - PRESSADVANTAGE -

Fresh Look Property Services is happy to announce junk removal services after 30 years of business. Initially, they launched as a home building and remodeling company, also offering villas. Recently they launched handyman services and today they launch their junk removal service.

When asked about these big changes, owner Dominic Moulton had this to say, "It is getting harder and harder to find home and property solutions that are convenient. You have one guy you call to fix your sink, you have another guy you call to install a ceiling fan, and another guy for a new bathroom and another guy to take away your old couch and rusty grill. It is all the same service - home and property. I asked myself why there isn't one business that just offers all home and property solutions. Then I realized that I was a part of the problem. I was the 'new bathroom' guy. I needed to be the new bathroom, sink fix, and ceiling fan guy, so junk removal was just the next step."

Fresh Look Property Services offers many services for home and property. Mostly, Dominic and his team offer remodeling and building for homes and businesses. In addition, they also hand-craft doors, cabinets, and window structures.

Greta Jones of South Portland recently cleaned out her house and had too much stuff for a single trip to the trash facility. She called Fresh Look to see if they could help. "I was doing my spring cleaning and decided that I wanted a lot of new furniture, so the old stuff had to go. Plus I had a bunch of stuff in my basement that was taking up too much space. I finally got some help to bring it out, but then I realized it was too much stuff for the trash company to pick up. I used the internet to search 'junk removal service near me' and couldn't find anything. My friend had Fresh Look Property Services remodel her kitchen and they took all of the old appliances, so she recommended that I try them. I gave them a call and the next day, everything was gone!"

For residents in the Portland community looking for home building, commercial construction, or home remodeling, Fresh Look Property Services now has a full suite of construction and property services. From appliance installations to kitchen remodels and from drywall repairs to junk removal, the company can provide them all.

Harold Brown in New Hampshire hired Dominic to remodel his bathroom and then had a junk removal challenge on a job he had in Maine. "Dom did my bathroom and I loved it. I'm in construction myself, but not home remodeling, mostly commercial. I was on a job site for a commercial construction and we had to take out a lot of drywall dividers. We ran out of space to pile it up and didn't have the equipment to take it away. We needed a trash haul bad. I called Dominic since I knew he was from Maine to see if he could recommend anyone. He offered to come out and do it himself at a price I considered very affordable. Within hours we were able to keep working on the commercial project and finished on time."

Dominic and his team at Fresh Look Property Services are always glad to offer a helping hand, even if it isn't a service they are currently advertising. They recommend always calling to see if they can do the home or property-related job, and if they can't, they can recommend someone who can. They have the high-quality equipment, materials, and expertise to provide assistance at a moment's notice.

Richard C. had an old car he needed to get rid but it didn't run anymore. He started his search online. He explains, "I'm pretty sure the car was rusted into the dirt. It had been sitting there for 10 years or so, and it showed. It was an eyesore that was driving down the value of my property. I checked online, searching 'junk removal Maine' and found that my choices were severely limited. I checked junkyards as well and finally just decided to start calling contractors to see if they could at least recommend someone. I spoke with a home builders company and they recommended Fresh Look Property Services for handyman and junk removal. I called them straight away and by the end of the week, the car was gone. It left a sizeable patch of dirt and mud behind, but that was my fault."
