

Pride Cleaning & Restoration Announces Mold Removal In St Louis

November 01, 2018

November 01, 2018 - PRESSADVANTAGE -

Pride Cleaning & Restoration has announced the availability of their mold removal St Louis services. The company warns that mold grows best in damp and warm environments and multiplies through microscopic spores. These spores travel through the air and attach to various parts of the home, such as flooring, dry wall, and other materials. Given the right conditions, mold can multiply quickly in places like the bathroom, basement, and crawlspaces.

Jim Seubert from Pride Cleaning & Restoration says, "If you've got moisture in your home or have had water damage in your house due to a burst pipe, a roof leak or a heavy summer storm you may get mold. The first step to solving your mold problem is to call Pride Cleaning & Restoration within 24 hours so that we can use our over 30 years of expertise to help you through the process."

Jim points out that there are a number of things that homeowners can do to control mold growth. These include controlling the humidity level; cleaning and drying thoroughly after water flooding; sealing of leaky pipes, windows and roofs; and ventilating the laundry, shower, and cooking areas.

Jim explains that mold tends to multiply on porous surfaces when there is humid stagnant air. Mold usually prefers temperatures above 60 degrees Fahrenheit but it can grow even in cold temperatures, which is why it can also be found in a refrigerator. Most often, mold can be found in places like duct work and ceiling tiles; wallpaper and drywall; basements, attics and crawlspaces; drapes, carpets and furniture; books, magazines and anything made of paper or organic material.

Jim Seubert says, "The impact of mold is not just health problems and structural damage to the home. It can also severely affect the value of the home for those who are trying to sell the house. Some real estate agents have estimated that the presence of mold can bring down the price of a home by up to 10 percent. However, mold removal cannot be a DIY project as mold can pose a serious risk to health. This is where the mold removal services of Pride Cleaning & Restoration come in."

That the services offered by Pride Cleaning & Restoration are high quality can be attested by the positive reviews they have received. For instance, Julie M. gave them five stars and said, "Pride Cleaning & Restoration is always very prompt especially on emergency repairs on Holidays and weekends and very very happy with the type of service that they provided to me and my clients."

J.R. Bell also gave the company five stars and said, "Jim, Susan & the team at Pride are awesome. They have helped both me personally with my water loss as well as many of my clients. As an insurance agent, I appreciate the attention to detail and the professionalism they bring. They showed up at our house at 10:30 on a Friday night to handle the sewer water leak we had. They helped with every aspect of the claim process including working with the adjuster to make sure nothing got missed on our insurance claim. They are a family owned business that I have had the privilege working with for years. If you have water in your house, don't wait call Pride today."

Mold removal is just one of the many services offered by Pride Cleaning & Restoration. They also offer water damage restoration, smoke & fire damage restoration, carpet cleaning, air duct cleaning, and pet odor and spot removal.

Pride Cleaning & Restoration is a leader in water damage repair in St. Louis, Missouri. They specialize in water damage restoration. Their water damage technicians are fully trained and have years of onsite experience. Thus, in conjunction with this, they also offer mold remediation services.

With their mold remediation St Louis services, Pride Cleaning & Restoration can help with a number of things. These include starting the insurance claim process, determining where the mold problem originated, and providing solutions for the removal, repair, and prevention of mold from returning to the home.

For water damage services, Pride Cleaning & Restoration offers 24 hours emergency services.

Meanwhile, their 24 hour emergency services are not just for water damage repair. These are also available for debris removal, crime scene cleanup, biohazard cleanup, fire response, emergency water extraction, emergency board up, storm response, natural disaster response, trauma cleanup, tarp over services, wind damage services, and vandalism cleanup.

Those who need more information about the mold removal and other services of the company can visit their company website or their Google Maps page.
