

Travel Navigator Reveals New Unique Travel Accessories Lineup

July 02, 2015

July 02, 2015 - PRESSADVANTAGE -

Travel Navigator, a new company based out of Dover, PA, recently revealed that they will be launching their unique line of travel accessories, which are catered toward providing safe and convenient journeys. The company was started in June of 2015, and their first product to hit the market is a neck travel wallet. This wallet will be available in late July through the company's online sales outlet.

Along with the announcement of their new line of travel gear, Travel Navigator has also launched a VIP club, which allows consumers to join for free and receive discounts and promotions on upcoming items. The first product to receive this special promotion is the new travel wallet, which may be available for free to VIP members. Charles Hynes, of Travel Navigator, has said the following regarding the VIP initiative and the company's hope for the future of the club: "We're excited to announce the launch of our VIP Club, which will be a great resource for anyone who loves to travel. The VIP Club is free to join and we will be offering exclusive discounts and some freebies whenever we launch new products. We intend to use the VIP Club to better serve our target audience of travelers and to get their feedback on our products, include their input on products that they would like to see in the future."

The travel wallet and passport holder is designed to help travelers with identity theft through the use of an RFID blocking material. The pockets on the wallet can be used to hold coins, identification, a passport, family photos, and even a smartphone. Travel Navigator has suggested that consumers can choose the way they wish to wear the wallet based on comfort preferences. For example, it can be worn on top or beneath the shirt while hanging around the neck, but through adjusting the strap, it can also be tucked into pant pockets or worn at the hip.

The wallet has five different pockets, some with velcro, others with zippers, and the materials used are lightweight so that the wearer will feel no stress from the product during travel. Although light the wallet is not flimsy, and has been described by the company as durable and made to last. Travel Navigator believes so firmly in the quality of the wallet that they have issued a one year warranty, during which time any damage incurred to the product will provide the user with a free replacement.

Those interested in purchasing the wallet, or who wish to learn more about the other upcoming products provided by the company, are invited to join the Travel Navigator VIP Club. Signup is quick and easy from the official Travel Navigator website, and promises consumers the latest news and promotions on all available merchandise. The site also gives a detailed description of the Deluxe Travel Neck Wallet, and provides contact information for direct interaction with the company. Although the wallet is not yet available, becoming a member of the VIP Club is encouraged as it offers advantages that nonmembers won't receive when products do become available.
