

CharterBus.com Offers Bus Rental Atlanta Quoting Service

November 01, 2018

November 01, 2018 - PRESSADVANTAGE -

Charterbus.com is happy to announce that it is now offering bus rental quoting services for Atlanta, Georgia. The bus rental quoting service is available for residents and businesses alike who would like to travel to Atlanta. The company's headquarters is located in NJ, but the company is excited to offer its bus rental services to its customers for Atlanta.

The bus rental service offers different types of buses for individuals and companies to charter for their trips. These types of buses include motor coaches, mini buses, school buses, and party buses. The kinds of trips available include day trips, overnight, long distance, one way, and others. They also offer fleet services. The bus charter rental services are available in all 50 states.

The company says that some bus companies specialize in specific types of events. With their service customers can let all local, regional, and ground transportation bus companies know the type of event they are having. Then they can then get matched up with the most appropriate vendor. There are many kinds of events that they can charter a bus for, such as trips to the airport, bachelor and bachelorette parties, camp, casino, concerts, and sporting events to name a few.

The bus rental process is very quick and painless. Customers can go to the website or call 866-470-5184. On the website they can make their request by filling in the questionnaire with their trip details and the company will do the work. Customers can get instant quotes from local and regional charter bus companies. Then they can choose the best bid. At CharterBus.com, people can evaluate each offer based on the cost and quality of the vehicle. This makes it easy to charter a bus.

The company has stated that they strive to be the nation's number one online marketplace in the charter bus industry. In the past it has been challenging for many consumers to charter a motor coach, minibus, party bus or other buses. To find the right company with the correct vehicle can be very difficult with so many vendors and vehicles to choose from in different marketplaces. It can take hours to call many bus companies, compare vehicles, and negotiate prices. Plus, there are providers who could be just outside the immediate area of the customer that may have a better vehicle to fit the customer's needs at a better price.

An Atlanta bus rental can be used to visit the various attractions in the city. There are the arts and culture events. The Fox Theatre, an historic landmark, is the home of the Atlanta Ballet. There's the Atlanta Opera and the Atlanta Symphony Orchestra. Then there many festivals like the Georgia Shakespeare Festival and the Atlanta Film Festival. Historical attractions include the Martin Luther King, Jr. National Historic Site and the Atlanta History Center which houses the world's largest collection of Civil War memorabilia. Outdoor activities such as nearby Stone Mountain are a popular destination for locals and visitors.

There's championship golf at Druid Hills and Wolf Creek. People can see major sports teams such as the Atlanta Braves, Atlanta Falcons and Atlanta Hawks. The many restaurants feature some of the south's best and most authentic Mexican dishes to steak and seafood. And there is also the barbecue. For those who want to go shopping there's the Buckhead neighborhood and the vintage emporiums in Little Five Points where they can find antiques, upscale clothiers, jewelry and a huge assortment of specialty items.

Joe Lucci, in the company's main office, says that their bus rental service brings together over 3,000 bus vendors together to let consumers easily identify their charter needs and quickly communicate with multiple companies in one easy website. Joe says, "Price negotiating is eliminated as bus companies bid for your business and you can charter like a pro." Customers can save a good amount by letting the bus companies bid for their business.

In addition to the cost savings provided by price negotiating the company offers consumers the chance to buy empty legs and buses for 50% off. All they have to do is search discounted bus routes and contact the bus companies directly. The bus companies will sell empty buses in transit to and from other trips at a 50% discount for you. For instance, Charterbus.com may have a bus where a customer paid to go from Houston to Los Angeles one way. Customers can then rent that bus from Los Angeles to Houston for 50% off. They can

even rent that bus from anywhere along the route back to Houston.

More information about the bus rental services can be found at the company's website at Charterbus.com. Customers can also contact Joe Lucci at the company's headquarters in NJ.
