

Water Heater Installer Wins Solid Reviews From Home Advisor Users

November 08, 2018

November 08, 2018 - PRESSADVANTAGE -

Water Heaters Now!, a hot water heater installation company based in Minneapolis MN, is pleased to announce they have received great reviews from Home Advisor users. The company, located at 6432 Penn Ave S, is very happy to provide their services to commercial and residential customers in the Minneapolis St Paul Metro Area.

The Home Advisor reviews for Water Heaters Now! show that customers really like the water heater installer's services. The company offers different types of water heaters to their customers. These include atmospheric vent, power vent, and electric water heaters. They offer brands like Navien, Bradford White, and Rheem. And they are a member of the Plumbing-Heating-Cooling-Contractors Association. Customers who want to know more about having one installed can call (612) 876-5553.

Home Advisor has plenty of good reviews on the firm's services. Mike R. in Minneapolis, MN gave a 5-star rating and said, "They were very efficient and priced very competitively. Jake was very polite and professional." It seems that customers like Mike really value their services. Further proof of this can be found in the 5-star review given by Casey M. in Bloomington, MN. She said, "These guys were great. Same day install, very informative, polite, thorough, answered all my questions. Everything was great. I would totally recommend them."

Hot water heaters are typically used for cooking, cleaning, bathing, and space heating. It is hard to imagine life without access to hot water. Without hot water, people would be stuck using natural resources such as fire and hot springs. It wasn't until 1970 that the tankless hot water heater was introduced. The heated circulation system came along in 1990 which provided pre-heated water circulated throughout the home. And in this modern age, no one enjoys heating water on the stove just to take a bath.

There are fewer things in life better than coming home to a hot shower after a tough day. People want to be sure that even after they finish their shower, there will still be hot water available for doing those loads of laundry and the dishes that pile up in the sink. In the kitchen, cooking everything from rice pilaf to a bowl of

oatmeal requires hot water. And if people have either a dishwasher or a washer and dryer, chances are, they'll want the hot water tank to be reliable and consistently provide hot water.

Owner and Master Plumber Ray Snedrud says, "Hot water heaters are used for essential tasks like dish-washing, laundry, and showering." He has been plumbing in the twin cities as Royal Plumbing for 10 years. He goes on to say, "I have noticed that there are hundreds of plumbing companies who do thousands of plumbing types of repairs. I have had dozens of employees over the last 10 years, and I have found it very difficult to hire technicians who will respect people and their homes the way they deserve. One day five years ago, it occurred to me that if we only install and repair hot water heaters, we could become the leading experts at doing one thing."

The company notes that they will replace the hot water heater the same day if the customer calls them by 2 pm Monday through Friday. If they cannot get it done that day they will give the customer a \$50 gift card through their Water Heaters Now Guarantee. Customers can even use the \$50 for a discount. They go on to say that tankless heaters require an additional day. All of their technicians have a minimum of 5 years experience installing and servicing hot water heaters and other plumbing related work.

The business offers a warranty of 6 years on the tank and 3 years parts and labor. A 10-year warranty is also available upon request. They will match any written competitor's offer on the same equipment and warranty plus give a \$50 VISA gift card upon installation. Removal and recycling services are included with the installation or replacement of a water heater.

Getting a quote for service is quick and easy. Just go to their website or call them at (612) 876-5553. On the website just go to the Get a Quote page and fill in and submit the form. They will respond in 15 minutes. It's that simple. It's never been easier to get a quote for a new or a replacement water heater.

Those who would like more information about the company and the services they offer can visit their website. They can also contact the office in Minneapolis, MN.
