

## **Lea Louise Strengthens Its Line Of Personal Care Products Through Exfoliant Baby Foot USA**

*July 02, 2015*

July 02, 2015 - PRESSADVANTAGE -

Lea Louise, a company based in Hawthorne, California that offers personal care products, has added a foot exfoliant to its line of personal care products. The addition of the product, Lea Louise's Deep Foot Exfoliation, has made Lea Louise a premier source of personal care products found on the online marketplace.

Personal care products for both men and women have been in demand, and the need for foot exfoliants is becoming evident as more and more brands have been releasing new products every year. For Lea Louise, customer convenience and satisfaction is of the highest priority. "Foot exfoliants have become a great solution to DIY home pampering. It's more convenient, and saves a lot of time," a brand ambassador from Lea Louise stated. "We want our product to lead our company into reaching our goals, because we believe in our product."

Lea Louise's foot exfoliator guarantees baby-soft feet in under two weeks with regular use. The foot exfoliant is made from safe materials, including aloe vera extract, fermented extracts of milk, glycerol, lactic acid, lavender oil essence, papain, and malic acid. These ingredients work together to exfoliate feet and help remove calluses and relieve foot stress. It comes in "booties," designed to make foot exfoliating convenient.

All booties come with a wide-sealed edge, making it stand out from other foot exfoliants that are currently available in the market. Its taller section is designed to allow the bootie to stay on while exfoliating the top section of the foot. The foot exfoliant makes it easy to exfoliate feet through its ergonomic flat sole design. It comes in sizes 6-9, for men and women.

The product is available on Amazon, and is currently holding a high rating of 4.4 out of 5 stars on the website. More than 200 positive responses and feedback have been recorded, and continue to pour in with every satisfied customer. Briana shared her positive experience:

"Sunday night?I left booties on for 1 hours. Tuesday, I noticed my feet began to peel a little bit, but on Saturday my feet were really shedding away all my nasty dead skin. I was amazed because the product really worked and is completely pain free. My feet are beginning to look brand new; they are healthy and soft. My feet are still peeling and I can't wait until it is finished.I got the product at <http://Go2Azon.com/g/B00N744D4A-BABYFOOTUSA1> and am so thankful for the opportunity to try the product."

Lea Louise is always on the lookout for personal care trends in order to update its current roster of health and beauty products. The company continues to push Deep Foot Exfoliation to the top while getting customer satisfaction.
