

Roofing Contractor In Lynnwood WA Launches New Website

November 13, 2018

November 13, 2018 - PRESSADVANTAGE -

Lynnwood Roofing Services is a roofing company that is located in Lynnwood, Washington. The company recently announced that they have officially launched their new website and to showcase the new services that they are offering in Lynnwood and the surrounding areas.

Matilda Creed, a representative for the roofing company in Lynnwood says, "We are pleased to have our website up and running <https://lynnwoodroofingservices.business.site>. It was designed to give you all of the information that you need about our services and to help you to make an informed decision when you are choosing a roofing contractor in the area."

The company states that they are a locally owned and operated company that provides services to home and business owners in the area. They state that they offer competitive rates for all of their services, in addition to a guarantee on all of their roofing work. The company has decades of experience in roofing and employs only qualified and experienced roofing contractors to handle all of their work.

Creed says that it is this experience along with the quality of products that they offer and their friendly

customer service that makes them a preferred choice by home and business owners for all of their roofing needs. She says that all of their staff is dedicated to complete customer satisfaction and that they only hire the most trustworthy people to work for them.

?You need to be able to trust your roofing contractor,? says Creed. ?And we help you with that by only hiring people that have proven themselves to us. We have very high standards and all of our employees have met or exceeded those standards just as we know that we can meet and exceed all of your roofing repair and replacement needs.?

The company says that those who are interested can learn more about the areas that they service by visiting <https://goo.gl/maps/gjsqMhpuZTv>. Creed states that they work with the highest quality of materials to ensure that the roofs that they install last for many years. She says that depending on the specific type of roof that is installed, it can last up to 25 years. This depends on a number of factors such as the regional weather conditions and the quality of materials that are used. Creed says that they use the best quality to give their customers the best possible experience. She says that the company?s new website offers more information on the roofing materials that they offer as well as their specific services so that customers can make a more informed decision when hiring a local roofing contractor.

The website offers a number of tips for those who are looking to have their roofs replaced or repaired. Creed says that this information can be very helpful to those who are facing roofing issues and states that the company wanted to design their website so that it would be easy to navigate for those who are looking for roofing information. She says that their services, including those for residential and commercial customers, can be found on the website as well as tips on how to determine if roofing services are needed. Creed says that many consumers are not aware of how to know if they have a leak and she says that the website gives more information on what to look for with regards to a roof leak and what to do should a homeowner or business owner notice any of the signs of roofing issues.

The company is currently offering a wide range of services in and around Lynnwood including residential and commercial roof replacement, roofing repairs for homes and businesses and emergency services. Creed says that when a leak begins, it can cause massive damage to a home or business if not repaired quickly. Damage to the inside of a building can result from rain and other debris entering the building through a leak. She says that the company offers emergency services that can help to protect homes and businesses from incurring any additional damage from the roof leak, in addition to inspections to check for leaks or any issues that may cause leaks in the future.

Creed says that customers in and around the Lynnwood Washington area can visit the company at <http://bit.ly/2RPbGVF> to learn more about their new range of services and to get more information about roofing in general and what to look for with regards to damage or other issues with the roof. Those who are

interested will find contact information for the company on their newly designed website.
