

Floral Design Classes Announced By Wedding Design Academy

October 29, 2018

October 29, 2018 - PRESSADVANTAGE -

The Institute of Wedding and Event Design is a premiere provider of Wedding and Event Design courses. They offer in-class or online and is composed of 24 lessons that will prepare people for a career in wedding and event business. The advanced floral design course will allow students to build their skills on hands-on education and floral design classes that will last for five days.

As the signature program of The Institute of Wedding and Event Design, the event design course provides up to date design and style instruction, demonstrated skills, and more. The first four days of the program are geared specifically toward hands-on instructions, and the building and development of design skills and techniques. The fifth day would be the "business day" when students are provided with specific and practical information about operating an event business from instructors that currently and successfully run their own event design business.

Class sizes are intentionally kept small to accommodate 1-on-1 support and guidance from the instructors and to assure the most valuable learning experience for the student.

Student comments reflect a positive learning atmosphere and valuable substance during the five-day event, noting that the course had changed the landscape of their business. Students with experience, and those new to the event and design industry, remarked in reviews that they would "highly recommend to those who want to perfect their craft and expand their business," as well as "anyone who wants to begin a career in this industry."

On its website, The Institute of Wedding and Event Design introduces an Executive team with more than 40 years of combined event experience. The instructors all currently operate their own wedding and event businesses while also sharing their knowledge in the IWED classroom. In more than ten years of instructing and certifying designers, IWED indicates that worldwide, more than 1,000 students have graduated.
