

Toronto Naturopathic Wellness Centre Publishes Post On Celebrities Who Have Tried Vitamin B12 IV Therapy And Shots

November 16, 2018

November 16, 2018 - PRESSADVANTAGE -

Dr. Amauri Wellness Centre, a naturopathic wellness centre in Toronto, Ontario, Canada, has announced that they have published a blog post titled, "Celebrities Swear By Vitamin B12 IV Therapy & Shots - Find Out Who". The article reports on celebrities like Simon Cowell, Rita Ora and Lea Michelle, who have tried vitamin B12 therapy or vitamin B12 shots, and have experienced positive results.

Dr. Amauri Caversan, the naturopathic doctor at the wellness center, says, "For people who are deficient in vitamin B12, we are able to provide vitamin B12 therapy through intravenous (IV) delivery or through injections. These kinds of delivery have the advantage of the nutrients not needing to go through the digestive system as they are directly injected into the blood stream."

Meanwhile, Dr. Amauri Wellness Centre had previously issued a press release which had announced that naturopathic medicine and IV therapy are now provided under one roof. The Dr. Amauri Wellness Centre

points out that, "Your next step is to consult Dr. Amauri Caversan, who will discuss mandatory blood testing and provide a complete checkup to determine any nutritional deficiencies. This allows Dr. Caversan to maximize the power of your IV vitamin therapy."

Dr. Amauri explains that when combined with a wellness program, IV vitamin therapy has the benefit of making people feel better faster because a safe dosage of vitamins goes straight into the circulatory system. He points out that IV vitamin therapy is commonly used to treat and prevent many illnesses, such as Alzheimer's disease, allergies, cancer, autoimmune diseases, chronic fatigue syndrome, cardiovascular disease, digestive disorders like Celiac disease and irritable bowel syndrome, chronic Lyme disease, flu or colds, fibromyalgia, Epstein-Barr syndrome, infections, immune balance and support, multiple sclerosis, migraines, HIV support, hepatitis C, restless leg syndrome, recovery from mononucleosis, shingles, and revitalization after chemotherapy.

Meanwhile, Dr. Amauri advises people to do six things before their vitamin IV therapy appointment. These are: to get as hydrated as possible; eat something to keep the blood sugar level up because some vitamins and minerals can lower blood pressure and blood sugar; moving around because this allows the blood vessels to dilate; avoiding decongestants and antihistamines; relaxation and deep breathing; and not worrying because there is nothing to worry about.

Dr. Amauri explains that blood tests have to be performed before a patient's first IV vitamin treatment because some people may be allergic to certain nutrients. Furthermore, some of the IV treatments may not be suitable for those who have heart disease, kidney disease or high blood pressure.

Dr. Amauri points out that there are various benefits of IV therapy. These include 100 percent absorption because the nutrients do not pass through the digestive tract, rapid delivery, complete re-hydration, and restoration of energy levels.

Aside from nutritional IV therapy, Dr. Amauri Wellness Centre offers pain treatment, health programs, and wellness services. Pain treatments include cold laser therapy, shock wave therapy, natural anti-inflammatory and pain medications, naturopathic manipulation, and acupuncture. Health programs include brain and body exercise, detoxification and longevity programs, continued care program, optimized longevity, medical evaluation, and hormonal support. Wellness services include naturopathic medicine, testosterone replacement therapy program, bio-identical hormone replacement therapy, addiction and neurological support treatments, thyroid support, lab testing services, fertility, and detoxification and weight loss.

Dr. Amauri Caversan is a world-renowned expert in naturopathic medicine that is backed by evidence-based science. He has a Bachelor of Science degree and he obtained his diploma on naturopathic medicine from the Canadian College of Naturopathic Medicine (CCNM), which is arguably the top school in Canada for

naturopathic medicine. He is a board-certified naturopathic doctor (CCNM), licensed to practice parenteral therapy in Ontario, licensed to practice naturopathic medicine in Ontario, and a member of the Ontario Association of Naturopathic Doctors and Canadian Association of Naturopathic Doctors.

Because of his expertise, Dr. Amauri has already delivered speeches in countless integrative medicine seminars. His speeches are commonly focused on detoxification, anti-aging, IV therapy, environmental medicine, and preventing chronic diseases.

The team at Dr. Amauri Wellness Centre is made up of Dr. Amauri Caversan as the naturopathic doctor, Arv Buttar as the Nurse Practitioner, Christie Ness as a Fitness and Wellness Coach, Karen Natasha for Professional Coaching, Linda Van Dyk as Holistic Nutritionist, and Margot Pic as the Osteopathic Manual Practitioner.

Those who need more information about vitamin B12 therapy or anything about naturopathic medicine and wellness services may want to contact the IV therapy Toronto clinic and then schedule a consultation.
