

Lawn Care Company Provides Winter Services in Indianapolis, IN

November 01, 2018

November 01, 2018 - PRESSADVANTAGE -

Miss Mow Lawn Services of Indianapolis, IN is announcing that they offer numerous winter services in the Indianapolis area. The company states that their regular winter service program starts in the fall and includes leaf removal and gutter maintenance along with snow and ice removal as temperatures fall.

"We're happy to bring our new winter service programs to Indianapolis and surrounding areas," says the company. "Lawncare, removing leaves, ice and snow really is our passion. Snow and ice removal are serious safety concerns, so we take this part of our business very seriously."

Miss Mow mentioned that snow and ice removal really are important if you have small children or elderly family members. The company states, "Even if you don't have children or grandparents living in your home, when they visit, the danger of slipping on ice is very real."

Snow removal services include plowing driveways and shoveling walks. Snow blowers and shovels are used in places that the snow plow is unable to reach. Ice melt is placed when requested by the owner. Miss Mow Lawn Services offers all forms of ice melt, including calcium chloride, magnesium chloride, CMA, and many others. One of the company's technicians stated, "Knowing which ice melt to use on different surfaces saves an owner maintenance in the long run. For instance, knowing which products to use on concrete to avoid pitting and staining is important."

The company indicated that their snow removal technicians receive in depth training to be able to safely remove snow and ice. Miss Mow Lawn Services states that there are many possible pitfalls when performing snow removal services including property damage.

In addition to winter services, the company also provides lawn care and landscaping services including gutter cleaning, leaf removal, tree and shrub protection, and heat cable installation. More about their new and existing lawn care services in Indianapolis, IN and surrounding areas can be seen on their official website at <https://miss-mow-lawn-services.business.site/>.
