

AMPRO

Philadelphia Custom Screen Printing Company Launches New Website

November 12, 2018

November 12, 2018 - PRESSADVANTAGE -

Ampro, a Philadelphia custom screen printer, has announced that they have just launched their new website. The company states with pride that when it comes to custom printing in Philadelphia, they are one of the first and the best. The company has worked with many high profile companies such as Villanova, Wawa, The Special Olympics, WWE, The Philadelphia 76ers, The Philadelphia Flyers, Manco and Manco, Avalon Beach Patrol, Audi, Porsche, and Abercrombie & Fitch.

Steph Shea from Ampro says, "We thought it was time to have a new website. And we're glad that we had it redesigned. We now believe that our site is more attractive and more informative for people. It also shows why people should choose Ampro for their custom apparel decoration needs. Our artistic approach to printing creates a much higher level of quality than "industry standard." As the primary printer for the WWE for the past 10 years, printing many millions of shirts with durable, vibrant images, Ampro is known as one of the best t-shirt printers in the nation."

Their statement that they are one of the best is not just a claim. It is backed by positive reviews from past customers. On Google, Ampro has almost a hundred reviews with an overall rating of 4.9 out of 5 stars.

Taylor M. was one of those who gave the company five stars. She said, "We are so thankful for Ampro. Their customer service is unlike anything I've ever experienced. Usually, I try to just navigate things on my own, because I think I can do it better. But with Ampro, we owe everything to our rep, Mike. He has helped us out so many times - everything always coming in earlier than expected and immediate responses."

Likewise, Matthew T. gave Ampro five stars and said, "Ampro is hands down the best place to order from! The quick turnaround, quality of products, ease of communication, and the reasonable prices is definitely what a consumer looks for when ordering products; and Ampro delivers all of that. I've had multiple orders with Ampro for the past few years and every order was easy. I definitely recommend them if you're looking for a high quality/quick turnaround product."

Another previous customer, Haneef H., also gave the company five stars and said, "Ampro has been excellent with providing quality uniforms for our youth sports programs. The staff are great and very responsive. I have been working with Ampro for 3 years now and all has been amazing during this time."

Aside from the launch of the new website, Ampro has also posted a few new blog posts, one of which is an article that provides information on what is screen printing. This article provides an overview of screen printing and then goes on to discuss the history of screen printing, why silk screen printing is used, the step-by-step process of screen printing, whether silk screen printing will wash away, the difference between digital and screen printing, and the difference between heat transfer printing and screen printing.

Ampro offers various products. These include T-shirts, sweats, athletic wear, business wear, ladies wear, youth apparel, bags, and hats. For services, they provide screen printing, digital printing, embroidery, rush orders, event merchandise, and fundraising and team stores.

One of the important features of the new website is the Design Studio page. This page is designed to make it easy and simple for customers to order customer apparel. Furthermore, the new site makes it easy for people to request a quote by providing an online form.

Ampro is a family owned company that has more than 40 years of experience in decorating all kinds of apparel. They can do screen printing, digital transfer, embroidery, Cad-cut, direct to garment, digital printing, pad printing, applique, and other decorating methods. They are one of the most diverse decorating facilities found on the East Coast. Ampro also has a multi-sport 65 feet by 170 feet Puregrass no-infill turf indoor practice field with touchlines for boundaries. This fieldhouse is available for rent and is located at the back of the Ampro facility. The fieldhouse is open from Monday to Friday 4:00 pm to 11:00 pm. It is also open on Saturdays and Sundays from 8:00 am to 11:00 pm but only by reservation.

Those who need more information about the services provided by Ampro can visit their official website or call

them by phone. Steph says, "Those who have been searching for a "screen printer near me" may do well to contact us and find out whether our services and pricing are suitable for them."
