

Miss Mow Lawn Services Indianapolis Announces New Team Member

November 05, 2018

November 05, 2018 - PRESSADVANTAGE -

Miss Mow Lawn Services of Indianapolis, is proud to announce another newly-added member to their growing team of lawn care professionals. Jake Robinson, formerly of Wichita, KS, brings with him 8 years' experience in landscaping, lawn care, and hardscaping in temperate climates.

"I'm happy to be joining such a fast-growing company," says Jake. "The opportunity is really booming here in the Indy area." In fact, 13 out of the 15 fastest growing cities in Indiana are Indianapolis suburbs, including places like Whitestown, Mooresville, Greenwood, Lawrence, and Noblesville. For additional details on service areas, consult the Miss Mow website.

Jake's first order of business will be to learn the company's rigorous quality control systems. Speaking for the company, Loren Wissle explains, "Every service we provide revolves around the customer experience, so we make sure each new employee gets thorough training on service expectations, quality control, and getting good customer feedback." While the initial training program lasts three weeks, there is ongoing training throughout the year, as well as product-specific training whenever the company has a new product offering, says Wissle.

That heavy focus on customer service appears to be paying off. The company intends to add three additional service technicians before winter. "We're not perfect, but we work hard to get just a little better every day," says Wissle. "We expect great things from Jake."

Miss Mow Lawn Services, Indianapolis, offers a full complement of lawn care services: grass cutting, trimming, sod, seeding, weed control, fertilization, aerating, landscaping, and seasonal services like leaf removal, planting, or removal of shrubs, plants and hedges. Recently, the company has also begun offering hardscaping services such as brick patios, retaining walls, outdoor fireplaces, benches, and fountains. For further details on pricing and availability, check their website at www.missmowlawnservices.com, or by phone at (317) 743-2870.

The company is also currently accepting resumes for three new technicians. Email resumes to info@missmowlawnservices.com.
