

Plane Detailing Now Offered By D.I. Auto Care

November 14, 2018

November 14, 2018 - PRESSADVANTAGE -

D.I. Auto Care, a car detailing shop in Phoenix, AZ, has announced that they have expanded their services in order to include airplane detailing. The car detailing company has been providing car detailing services for more than 30 years and they have a perfect 5 star rating on Yelp and a near perfect five stars on Google. The detailing involves a thorough cleaning and reconditioning of both the exterior and interior of the vehicle, which in this case is an airplane.

Paul from D.I. Auto Care says, "With our long years of experience of detailing various kinds of vehicles, we felt it was time to expand our services and include airplanes. It was a big leap but we have been receiving queries on whether we provide detailing airplanes and we could not refuse our customers."

That D.I. Auto Care will succeed in its plane detailing services is highly probable in view of the positive reviews they have been getting. Previous customers have attested to the quality of the detailing services. For instance, Hunter gave them a five star rating and said, "Bought a used car with stains. Light interior so I myself even added more. I honestly thought it was useless to even try a detailing but Paul came out and made my car look brand new! So happy it's in pristine condition now. I don't dread getting inside. Should

have done this a long time ago."

Kaci B. also gave the detailing shop five stars and said, "I had Paul come out to replace my front windshield and I realized he also does window tinting. I had him put the strip along the top of my windshield and tint the whole car while he was here. Amazing service and excellent quality of work. I was referred from a friend of mine who has been using Paul for over 20 years, I would highly recommend. A+"

On Yelp, D.I. Auto Care has a perfect 5 star rating. For instance, Katie C. gave them five stars and said, "My car is 10 years old and until today has always looked it. Even when I go through a car wash, it always looked dull and scuffed; the interior stained with coffee/juice and the carpet caked with dirt no vacuum could remove. Until I found Paul. Paul [...] was very professional and did an incredible job. My car looks new! The exterior is shiny, clean, and the scuffs that were there are no longer! The interior smells and looks fresh, and with summer road trips coming up I can't appreciate it more. [...] Highly recommend."

Allison B. said, "Paul is awesome. I can tell right off the bat he cares about his clients and takes pride in his work. He came to my home to detail and buff & wax my black f150. He did an amazing job, this paint is over 8 years old and has never looked better. He is a professional and someone whom I personally would use again."

Paul points out that car detailing is necessary to protect the vehicle from the elements. He warns of the usual misconception that because a vehicle already has a clear coat, its exterior finish is already protected from the elements and that there is no longer any need for regular maintenance. He states that a wax coat should be applied to the exterior at least two times a year as a protection from oxidation and contaminants.

Another important service offered by D.I. Auto Care is mobile window tinting. What this means is that they go to the office or home of the customer and perform the window tinting right where the vehicle is located. Paul states that window tinting is vital because it provides various benefits. These include enhanced privacy, reduction of the temperature inside the vehicle, and the blocking of harmful ultraviolet rays.

Still another service provided by D.I. Auto Care is mobile car glass repair and replacement. Paul points out that a defective windshield can drastically reduce visibility and this is critical when driving during bad weather in the snow or rain. He suggests that people choose rock chip repair because it maintains the dependability and integrity of the windshield's factory seal. Auto glass replacement services are needed to save the car from cracks, scrapes, pitting and various kinds of blemishes.

Those who need more information about the aircraft detailing services provided by D.I. Auto Care or their

other detailing and auto glass services can visit the company website or contact them by phone.
