# Penny Injury Chiropractic Releases New Website for Car Accident Victims

*June 25, 2015*

June 25, 2015 -
Penny Injury Chiropractic has released a new website providing information specific to accident victims and provide a better overall user experience.

Phoenix, AZ --Not all websites are created equal. Many website creators tend to include as much broad information as possible to cater to anyone who could possible encounter their site. Penny Injury Chiropractic, a chiropractic office based on Phoenix, AZ, which provides services to those who have been injured in a car and motorcycle accident, recently renovated their website to enhance the user experience as well as provide more in depth material and information catered specifically towards accident victims who may need their services.

?When you visit our website, you?re most likely doing so because you?ve been injured in a motor vehicle accident and you?re trying to figure out what to do next,? said Dr. Trever Penny, the lead chiropractor at Penny Injury Chiropractic. ?We wanted to tailor our site specifically to these accident victims to help answer questions we most commonly received from our practice. We also made sure to include what to do and what not to do in certain situations, as well as specifics to the services we provide and the injuries we treat.?

Dr. Quackenbush added that because their practice caters specifically to auto accident victims, it was crucial to revamp their site in order to offer those injured in accidents information regarding their injuries. Another thing that makes their clinic unique is anyone who is not found at-fault for the accident that caused their injuries will not have to worry about out of pocket costs. This is because the clinic will bill the at-fault person?s insurance and simply wait for the payment, rather than charging the patient or their own insurance. The clinic also works closely with attorneys in order to take care of these costs and handle all paperwork.

The new and improved website answers a number of frequently asked questions regarding accident injuries. For example, the website explains that even if a car only sustained minor damage during an accident the victim can still be seriously injured. Studies have shown that damage sustained to an automobile does not necessarily directly relate to the force that was applied to the neck or back of the occupants in the vehicle.

The clinic, originally created by Dr. Trever Penny, treats a number of conditions and personal injuries, including headaches, closed head injury, neck pain and whiplash, lower back pain and elbow and knee pain. The clinic offers incredible benefits such as same day appointment, no health insurance being required, a personal Attorney-Chiropractic injury Patient Liaison Mr. Julio Saavedra and much much more. Patients at Penny Injury Chiropractic recieve massage therapy, ice packs, Ultra sound, Diathermy as well as specific rehabilatative exercises guided towards improving range of motion, increase of joint function and strengthening of the surrounding muscles, ligament and tendon strength.

For more information regarding Penny Injury Chiropractic be sure to visit their new website.

About Penny Injury Chiropractic

The Phoenix based Chiropractic Clinic serves patients who have suffered injuries from auto accidents throughout the West Phoenix area. Started more than 15 years ago by Dr. Trever Penny, the clinic provides treatment for whiplash injury and other neck pain, head injury, lower back pain and more. Penny Injury Chiropractic also works with more than 40 personal injury attorney offices to hold the at-fault party?s insurance responsible for payment.
