Assisted Living Center Announces New Hire For Northwest Region

November 26, 2018

November 26, 2018 - PRESSADVANTAGE -

Senior Care Center, a California based company that gives advice on where to find the most suitable assisted living facilities and accommodations for elderly people in any part of the United States, has announced that Mr. James has joined the northwest region. The company offers help to seniors or their families in finding the best home for seniors. The assisted living center offers advice for free.

Casey Ryeback from Senior Care Center says, "We are happy to announce that Mr. James has joined our operations in the northwest region. We expect him to be a valuable help for seniors and their families in the northwest region in their efforts to find an appropriate home for them during their golden years."

Casey adds, "Senior Care Center is helping families across America achieve peace of mind by matching their loved ones with the perfect community, so they can live out their golden years in comfort, safety, and joy." They offer advice on senior care in top cities, such as Las Vegas, Denver, San Diego, Minneapolis, Seattle, Phoenix, San Jose, Boston, Atlanta, Philadelphia, Miami, Houston, Dallas, Chicago, New York, and Los Angeles.

Assisted living facilities are designed to provide assistance to seniors with regards to daily living and personal care. Memory care homes are designed for seniors who are suffering from Alzheimer's disease or dementia. Just like with assisted living facilities, residential care homes are also for seniors who are in good health but require help with their personal care and daily living activities. The difference is that residential care homes are usually residential homes or communal homes that can accommodate up to six residents for each home. Thus, seniors who prefer a more homey environment can find this in residential care homes.

For those who need 24-hour medical care, such as those who are recovering from injuries or have a chronic illness, the most suitable would be the nursing homes. These are equipped with medical resources like dialysis equipment and oxygen tanks and also provide other services such as physical therapy, memory therapy, speech therapy, occupational therapy, and more. And finally, there are the independent living communities like the senior apartments. These are for seniors who are in good health and do not require assistance in daily living activities and personal care.

For instance, there are a number of assisted living communities in Las Vegas. These include the Las Ventanas at Summerlin, Brookdale Las Vegas, Pacifica Senior Living Regency, Atria Sutton, Oakey Assisted Living, Heritage Springs, The Wentworth of Las Vegas, Atria Seville, Sterling Ridge, Pacifica Senior Living San Martin, Acacia Springs, and Desert Springs Senior Living.

Las Ventanas is the only not-for-profit continuing care community in the state of Nevada. It provides facilities for assisted living, residential living, memory support and skilled nursing. Brookdale Las Vegas provides memory care and assisted living services to seniors in the greater Las Vegas area.

Meanwhile, in Denver, the assisted living communities include Brookdale Parkplace, HighPointe Assisted Living and Memory Care, Springbrooke Retirement and Assisted Living, Brookdale Lowry, Harvard Square, Sunrise at Cherry Creek, Brookdale Denver Tech Center, Brookdale Highline, Brookdale University Park, Dayspring Villa, Sunrise at Pinehurst, and Balfour at Riverfront Park.

Brookdale Parkplace provides assisted living, independent living, and Alzheimer's and dementia care in Denver, Colorado. HighPointe Assisted Living & Memory Care provides a retirement community composed of 97 senior apartments found in southeast Denver. Springbrooke Retirement and Assisted Living has 37 assisted living, 90 independent living, and 15 memory care apartments. Brookdale Lowry offers a three-story retirement community building with 169 apartments right in the middle of Lowry Air Force Base.

In Los Angeles, possible assisted living communities include Melrose Gardens, Country Villa Terrace, Belmont Village Westwood, Sunrise Villa Culver City, Vista Del Sol Care Center, The Cottages at Melrose Gardens, Hollenbeck Home at CCRC, Meridian of Cheviot Hills, Westwood Plaza Retirement, Bentley Manor by Serenity Care Health, and Garden of Palms.

Country Villa Terrace offers supportive individualized care and is conveniently situated in the Museum Row area and is only 5 minutes away from Cedars Sinai Medical Center. The Belmont Village of Westwood is located in a landscaped residential community and its senior living facility is found along Wilshire Boulevard's "Golden Mile". Residents can go shopping at Century City, Rodeo Drive, and Westwood Village.

And in New York City, seniors and their families can choose the VillageCare at 46 & Ten or Atria West 86. VillageCare at 46 & Ten offers basic services that are based on an urban lifestyle. Atria West 86 is a luxury residence that is designed exclusively for older New Yorkers, allowing them to live in the artistic and cultural center of New York, being located just one block away from Riverside Park.
