Custom Challenge Coins Available For Less At Spartan Coins

December 05, 2018

December 05, 2018 -
Spartan Coins has announced that they are offering seventy five dollars off qualifying orders of custom challenge coins. The promotion is available from October 23 to December 21, 2018 and the goal is to get 40 coin orders of 100 pieces or more for the said 60 day period. Qualifying orders will be orders of 100 pieces of more and if the sales goal is achieved, the company will be giving away three thousand dollars in discounts or three thousand dollars in order credits.

Robert D. Blackburn (Rob), owner of Spartan Coins, says, ?To take advantage of this offer you must place your order before receiving artwork from us. Once we receive your order we will complete artwork within 24 business hours. This offer is available on new coin orders, from new or existing clients. 100 piece minimum order. You will not be billed anything until you approve artwork and we proceed with production. The balance of the order is payable upon approval of the artwork and prior to production.?

Rob states that Spartan Coins is the only Spartan inspired manufacturer of custom coins. Customers can order cheap custom challenge coins, custom lapel pins, customized coins or any other custom promotional product made of metal. He points out that everything they do starts with a price quote. For those who are unsure of what they want, he urges them to contact Spartan Coins because they have 12 years of knowledge and experience.

Rob also wants to point out that the quality of their challenge coins and other products have been attested by the positive feedback provided by past clients. For example, Nick N. gave Spartan Coins a five star rating and said, ?Rob is pure genius! These coins are exactly what I asked for and expected. Patience is definitely his strong suit. I don?t know how many times I changed my mind and he met every request. The best thing about it all is that the whole process from idea to mock product to production took a little over 2 weeks! Super fast, and recommended to anyone who wants awesome coins.?

Meanwhile Amie. G. also gave Spartan Coins five stars and said, ?I asked Robert for help honoring my late husband. He was helpful, creative and flexible! I love the final product and so does everyone who has

received one. I highly recommend Robert and will definitely ask for his help again.?

Spartan Coins allows clients to make their own custom coins. Rob states that they have made it their mission to provide affordable customer challenge coins. He points out that custom coin set up fees should not be too expensive. With their service, Rob states that clients would no longer have to endure costly coin die fees.

Meanwhile, the Spartan Coins website provides a checklist on how to order custom challenge coins. First, the client submits an inquiry, after which Spartan Coins provides an initial response. Then the client receives a quote and artwork within 24 hours. After the client has approved the artwork and placed an order, Spartan Coins proceeds with the production and then sends the coins to the client.

Rob says that they usually respond to quote requests within two business hours via email. Their normal business hours are from 8:00 am to 5:30 pm, from Monday to Friday. However, they would be willing to work beyond those normal hours in order to get the job finished when there is a need for it.

With regards to artwork, Rob says that they try to provide free artwork for all prospective clients. Such artwork is usually done within 24 hours depending on the operating conditions. And if the artwork will require a longer time to be completed, the client will be informed. Approval of the artwork is expected to be received from the client through email.

Those who need more information about the services provided by Spartan Coins can visit the company website or contact them by phone.
