

Christmas Decor And Lighting Service Offered In NJ

November 26, 2018

November 26, 2018 - PRESSADVANTAGE -

Holiday Decorating of New Jersey, based in Marlboro Township, NJ, has announced that they offer holiday decor and lighting service for homes and businesses throughout the Marlboro Township and surrounding areas. The company wants to stress that having cheerful holiday lights can brighten the home or business establishment. This is beneficial for businesses because the decorations make people feel as if they are at home and many feel more engaged with the vibrant atmosphere of a store.

Edward Rogers from Holiday Decorating of New Jersey says, "Christmas is one of the busiest times of the year, and decorating appropriately can help boost end-of-the-year sales. A brightly lit storefront emanates warmth. In turn, this invites more people in to your business. As customers do last-minute shopping, having Christmas decorations makes you more relatable and lets them know you have gift-worthy items in your store."

Edward Rogers adds that Christmas decor can also boost the morale of people, especially the employees of business establishments. This is all the more important during the holiday season when there are many shoppers who can add to the stress experienced by staff. Furthermore, a festive and lively environment tends to inspire positivity in the staff, which in turn can bring positive results for a better customer experience.

Although they are relatively new, they have already received some positive reviews. For instance, Sherif G. has given Holiday Decorating of New Jersey five out five stars and said, "Prompt service, professional, courteous installation. I had a couple of issues and they came back right away and took care of things. Highly recommended." Michael M. also gave them five stars and said, "Provided a high quality service at a Very fair price! Would definitely recommend them!"

On their Facebook page at <https://www.facebook.com/holidaydecoratingnj/>, Holiday Decorating of New Jersey has posted developments regarding the company, including photos of projects they have completed. Recently, they have posted photos of the homes they have decorated in 2018. These can provide people with a good idea of what the home would look after it was decorated by them.

Edward Rogers points out that there are various reasons why homes and businesses would want to install holiday decor. These include the fact that Christmas decor can boost sales, the fact that Christmas decor can lift up the morale of sales staff, the fact that the holiday decor and lights can enhance the home or business establishment's ambiance, and the fact that Christmas decor can make customers feel happy.

Edward Rogers states that homeowners who are tired of stringing up Christmas lights themselves, they can simply leave it to Holiday Decorating of New Jersey, which offers residential Christmas decor and lighting services. The company also conducts regular inspections of the lights to make sure that they are working properly and that they always look their best. And when the holiday season is over, homeowners need not worry about having to remove, clean up and pack the Christmas lights and other items. The team from Holiday Decorating of New Jersey will remove all of the lighting systems and bring back the home to its original appearance, until such time that holiday decorating would be needed again.

Holiday Decorating of New Jersey also offers their services to commercial establishments in the Marlboro Township and surrounding areas. There are a number of steps that they follow. First, a team from the company will visit the establishment and sit down with the client on choosing the preferred elements of the Christmas decoration and lighting.

Next, is the complete installation of the holiday decor and lighting. Edward Rogers says, "Don't worry about complicated light fixtures or elaborate reindeer statues, our team will figure out how and where to assemble all your holiday decor."

The third step is for the team to conduct regular inspections and maintenance of what they have installed. This is to ensure that customers have peace of mind knowing that they don't have to worry about failed electric bulbs and other problems. And finally, after the season is over, the customer only needs to give them a call and the team will go to the establishment and take down all of what they have installed.

For those who are concerned about the cost, Holiday Decorating of New Jersey can develop a plan based on the customer's specified budget. The customer will specify a budget and the company will present various options based on that budget.

Holiday Decorating of New Jersey has a home improvement contractor license and they only use commercial grade lights, fasteners and other products. Those who need more information about the Christmas decorating and lighting service can visit their website, locate them using Google Maps, or contact them by phone.
