St. Regis Labs has developed the product to help people have thicker and stronger hair that grows much quicker. It is suitable for men and women alike.

"People often refer to their hair as their 'crowning glory' and for good reason," adds Ron Rose. "Our hair is often the first thing people see, particularly from a distance. Furthermore, we have all heard of the expression 'bad hair day,' which demonstrates the great importance we all place in our hair. Our all natural, vitamin enriched supplement ensures people no longer have to suffer from the bad hair day, as their personal crowning glory will always look its best."
