

## **Announcing Great Give Away Discount Vouchers From Magnetic Child Safety Lock Company - Concepts of Spring**

*June 26, 2015*

June 26, 2015 - PRESSADVANTAGE -

Having extended the product range of their Spring Safe and Sound magnetic child safety cabinet locks, Concepts of Spring LLP have announced that they are also now offering generous discount vouchers on all their pack sizes which can be accessed on their website.

Proactively responding to customer feedback that suggested parents and other child minders would appreciate being able to purchase a variety of pack sizes, they now offer an 8 lock + 2 key pack; a 4 lock + 1 key pack and a 2 lock + 1 key pack. They consider that such variety will enable customers to plan the safety strategy of their home environment more strategically.

Sharon Ring, CEO of the company said that their two core values are producing high quality child safety products - such as their magnetic drawer and cabinet locks - that have been manufactured in the USA and ensuring customer satisfaction at all times.

Such safety devices seem to be needed, as online reports suggest that home based child accidents are on

the increase. Sharon said, "Small child accidents in the home - from trapped fingers to ingesting poisonous kitchen substances, can be fatal and yet they are so easily prevented by using tried and tested child safety lock solutions." Customers would seem to agree. One satisfied person, Benny Bookman wrote in a review, "They work exactly as described. Attention to detail is required for install, but the directions are clear. The bottom line is that there are no other solutions of this type out there. It's an innovative solution to a timeless problem for those with young kids."

Apparently, these locks are invisible from the outside once fitted and are activated by a strong magnetic key. Sharon mentioned that customer responses have been very encouraging such as a recent review from Sandy. She wrote, "We are very happy with the magnetic locks. You don't have to look at ugly visible locks. Also you can change it to stay unlocked which is great for when no toddlers are in the home. My husband had no problem installing them." It would appear that so far this company and its products seem to be ticking the boxes.
