Water Heaters Now! Gets Great Reviews For Its Tankless Water Heaters

November 23, 2018

November 23, 2018 -
Water Heaters Now!, a company providing water heaters and installation services in and around Minneapolis MN, is proud of the fantastic reviews of its Tankless Water Heaters. They offer this and many related services to commercial and residential customers alike in the Twin Cities area. The water heater company's Minneapolis location, at 6432 Penn Ave S, is very pleased to offer these water heaters to their many deserving customers.

The company specializes in Replacement water heater installations throughout the Twin Cities Metro area. Most people have tank-style water heaters in their homes, but Water Heaters Now! also installs Tankless Water heaters. They only install Navien tankless units which are the Green Alternative. Customers can call them and they will help the customer decide if a tankless water heater is the right choice for them. They will be on site the same day to assess the customer's individual hot water needs. After the order, a technician comes to the customer's home on the scheduled day, takes the old heater away, and installs the new one by 4 pm. Customers can get more information and a free quote by calling (612) 876-5553.

The company can install a tankless unit in only about 6-8 hours. When the order is placed they will be onsite the very next day after field-verifying where the new heater will be hung. Ray Snesrud, founder and owner of the company, says, ?Tankless heaters require some cooperative planning with the homeowner. And it is very important to provide our customers with great service so we work with them to achieve ultimate satisfaction for them. We have been successful because of this policy.? They also offer both tankless and regular service to their Twin Cities area customers.

Tankless heat exchangers last 3 times longer than tank style. This is because of many factors. First, tank units are made of steel that rusts and tankless water heaters are made of stainless which can last many decades. Second, tankless heaters increase the resale of the customer's home. Third, tankless heaters use 2-3 times less gas every year. Tankless technology has been perfected in the last 20 years. And the Navien tankless water heaters that the company provides are considered worldwide to be the most dependable tankless heaters on the market.

The water heater company has received many excellent reviews on Home Advisor which can be found in the press release on the Press Advantage website and these numerous good reviews include one from Mike R. in Minneapolis, MN who gave a 5-star rating and said, "They were very efficient and priced very competitively. Jake was very polite and professional." And Casey M. in Bloomington, MN, said, "These guys were great. Same day install, very informative, polite, thorough, answered all my questions. Everything was great. I would totally recommend them." The company has even earned an A+ rating from the Better Business Bureau.

The company has recently been promoting the tankless water heaters via Google Posts and social media sites and it is paying off. People are getting the word that these water heaters are getting positive feedback. More reviews can be found on their website. Tong Yang, from St Paul MN, said, ?Thank you for you and your team for installed the hot water heater so my family can have the hot water to use. I very appreciate your professional. Thank you.? And Jon Robbins, from Stillwater, MN, adds, ?Super easy to work with. Talked to Ray early in the morning and had new water heater installed by noon the same day. Would recommend Water Heaters Now to anyone.? The company has details on these tankless units which can be found on the tankless page of their website.

The overall service area is the entire Twin City Metro and South of Metro Area. Additional information about the numerous cities they serve can be found on the company's website. The cities include Minneapolis, St. Paul, Bloomington, Faribault, and many others. The company points out that customers in the various cities may receive up to 300.00 in rebates from companies like Centerpoint and Excel. It all depends on their energy provider. To make their customers even happier they have a guarantee which includes such benefits as using only technicians that have a minimum of 5 years of experience, promising to protect and respect the homeowner's residence, and matching any written competitor?s offer on the same equipment.

To get more information about the company's many services people can go to their official website at waterheatersnow.com. They can also contact owner Ray Snesrud by calling him at their Minneapolis location.
