Minneapolis Water Heater Company Announces Service Area Expansion

December 04, 2018

December 04, 2018 -
Water Heaters Now! in Minneapolis, Minnesota, has announced that they are now serving the entire twin city metropolitan area of Minnesota, including all of Minneapolis, as well as St Paul and all of its suburbs. The company sells and installs traditonal hot water tank style and tankless hot water heaters in gas and electric models.

Ray Snesrud, a representative for the company says, the company specializes in the installation of hot water heaters and states that they hire only the most qualified and experienced technicians to serve their customers. He states that the company provides water heaters from a number of major brand names, all of which are made from only the highest quality of materials that are available in the USA. The company states that the removal of old water heaters and recycling services are included in the cost of a new hot water heater.

Snesrud states that they work to fulfill their customers? needs, no matter what time of the day or night they may require their services. He says that the company works to ensure that customers get their installations done quickly and that any call that is made before 2 p.m. Monday through Friday is often serviced the same day.

?We do our very best to ensure that you receive your new hot water heater on the same day that you call,? says Snesrud. ?Our technicians will come to your home or business, install your new water heater and then haul away the old one and clean up their mess quickly so that you can get back to what you need to do.?

The company is pleased to announce the expansion of their water heater installation service area to include all home and businesses living within proximity of Minneapolis and St Paul. Snesrud states that they have a fleet of technicians who are all ready to assist customers with their hot water heater needs quickly and efficiently. The company states that their tankless hot water heaters are a cost efficient way to heat water for a home or business. Tankless hot water heaters only work when needed, which allows them to save up to 40 percent of the energy that is typically used for heating water. He states that these smaller and more efficient

hot water heaters save on energy costs but require a somewhat higher initial investment. Many homes have transitioned to a tankless hot water heater over the years as a means of saving money on fuel costs.

Water Heaters Now! has been in business for many years, serving customers in and around the area with high quality services and products. Ray Snesrud is a master plumber with decades of experience in his field. Snesrud says that there are few companies that specialize in hot water heaters and that Water Heaters Now! is the only one in the twin cities region that focuses solely on installation of hot water heaters for homes and businesses. The company has access to major brands and offers customers a variety of options based on their needs.

Snesrud says that those who would like more information on their services can visit them online. The company website provides more information about the types and brands of hot water heaters that they offer as well as various water heater installation reviews from past satisfied customers. Home and business owners who live in the twin cities region who may need more information about tankless or traditional hot water heater repair or installation can visit the company online or contact them directly to schedule service.
