ENMAR Hardwood Flooring Announces an A+ Rating with the Better Business Bureau

December 04, 2018

December 04, 2018 -
Brian Flynn of ENMAR Hardwood Flooring is happy to announce their A+ rating with the Better Business Bureau. The Better Business Bureau, or BBB, is an organization that fosters the relationship between businesses and their clientele. This service allows consumers to check reviews and ratings for a business they are considering and the opportunity to leave a review after they have completed a transaction with the business. A+ ratings are only offered to businesses that have a proven track record of positive customer experiences and successful transactions.

When approached about this announcement, Brian Flynn shared this comment, ?We are happy to have received this honor. We have been hoping to get A+ rated with the Better Business Bureau for a long time and put a heavy focus on customer service and quality materials in order to accomplish it. Our guys work hard for our clients and I know they have deserved this honor for a long time. I think we will have more accomplishments to share in the future.?

ENMAR Hardwood Flooring is a flooring installation company that has been serving the community of Gilbert, AZ for over 25 years. With their expertise and knowledge, they have been revered by their customers and

clients as the flooring professionals. They strive to provide excellent customer service alongside high-quality materials and expert installers.

Brittney Britanik had her hardwood floor installed in October 2018. This was the review she was glad to share on Google, ?I have been wanting hardwood flooring installed in my home for a very long time. I?ve shopped and done plenty of research. I decided on ENMAR because Brian made me feel comfortable (no pressure at all) and confident that my floors would turn out exactly how I pictured them. I was right!!! He made some great recommendations that saved us money while also giving us the perfect look that we were looking for. There were so many beautiful wood brands, sizes, and stains to choose from, but it was not overwhelming at all. It was really nice to have options and have the opportunity to bring samples home. I have already recommended ENMAR to several neighbors and friends. The experience was perfect from start to finish...thanks to the ENMAR team!?

Cindy Sheu XHI decided to transition her carpets to hardwood floors and chose ENMAR for the installation. This was the 5-star review she shared, ?I just had 5 rooms changed from carpet to wood floor by Enmar, they did a great job! Brian is knowledgeable and answered all my questions. 3 days the guys came and went, and completed the job as projected. No transition strips, just smooth flooring from tiled area to wood. Wow, I love it. I would recommend them to anyone I know if they are looking to install wood flooring. Pricing is fair, pretty similar to Home Depot?s quote.?

ENMAR provides a variety of services including reclaimed flooring, unfinished flooring, and repairs. Though their flagship service is hardwood floor installation, they can be sought for a variety of flooring needs. They help with the flooring needs of homeowners and commercial businesses alike.

Mike France had called around trying to get quotes before he choose ENMAR. This was his 5-star experience, ?Outstanding customer service! Great expertise in wood flooring. Absolutely recommend you talk with them before getting any hardwood floors.?

The hardwood flooring professionals, ENMAR Hardwood Flooring, offer White-Glove customer service. This means that they don?t pack up and go home once the installation is done. The installation team keeps their working area tidy in order to respect the environment they are working in. Additionally, they clean up after the installation is complete, ensuring they leave no mess behind.

While hardwood flooring in of itself is a work of art, ENMAR Hardwood flooring also offers intricate and decorative designs for their clients who are looking for something a little more unique. ENMAR?s inlays and designs have won awards and are nationally-recognized with their cross-hatching patterns and burst effects.
