New 5 Star Reviews For Arrowhead Clinic In Atlanta

November 29, 2018

ATLANTA, GA - November 29, 2018 -
Arrowhead Clinic in Atlanta, which is one of many chiropractic clinics operated by the company in Georgia, South Carolina, and Tennessee, is proud to announce new 5 star reviews for their clinic. The clinic is designed specifically for car accident care and injury victims. The clinic, located at 3695 Cascade Rd in Atlanta, is excited to provide these services to their customers.

The clinic's doctors work to alleviate the patient's pain associated with auto/truck accidents, neck and back pain, slip and fall accidents, and other injuries. The doctors conduct a chiropractic exam to assess the condition of the patient. They utilize spinal decompression therapy, chiropractic adjustments, electrical stimulation, and other techniques. The clinics are located in cities throughout Georgia, South Carolina, and Tennessee. Injury victims can get more information on the clinics' services by calling (770) 961-7246.

Johnny Brown, a representative for the Atlanta clinic said, ?When you're involved in a car accident or are suffering from chronic debilitating pain you need the help of a trusted doctor like those found at our clinic.? In a car accident the many symptoms can include neck pain, headache, fatigue, dizziness, and upper limb weakness. The most common delayed injuries after being in an automotive crash are soft tissue injuries such as whiplash. Brown says that in addition to relieving the pain, chiropractic treatment can also boost the immune system, erase dozens of diseases from the source, increase a patient's vitality, add years to their

lives, and promote the health and fitness level of patients.

In preparation for the free consultation by the doctors, patients will be asked to complete forms that provide background information about their medical history, condition, and symptoms. Then the doctor will conduct the chiropractic exam. Depending on the results of the chiropractic exam and previous medical history, diagnostic studies can be helpful in identifying structural abnormalities to more accurately diagnose the patient's condition and provide compelling evidence to the insurer why and where the patient needs chiropractic treatment. Then the doctor will establish specific goals for the patient's individualized plan of care. The use of yoga for back pain is another method that is recommended by the doctors. The clinic says yoga can help with back pain as well as various other aches and pains.

The patients must really like Arrowhead Clinic's services. According to one customer, ?The Atlanta clinic has the best chiropractor near me.? New 5 star reviews for the Atlanta clinic found on Google Maps include one from Princess Moore who said, ?I absolutely love this clinic, which why I chose this clinic for the second time around. They are very attentive and dedicated in making sure your needs are taken care of. They also make sure to accommodate with your schedule, that's a plus. Every staff member of this clinic makes you feel comfortable and well taken care of. The doctor is absolutely the best. If you need chiropractic care, this is the place to be.? Another 5 star review on that site said, ?Dr T and staff are super friendly & gave great customer service and care.?

The clinics also offer access to personal injury attorneys who provide a free consultation to victims that have suffered injuries in a personal injury accident. The clinic staff recommends that patients see their chiropractic doctors first, before hiring an attorney, so they can get all the proper documentation, detailed narratives, and daily reports the insurance companies and attorneys need for the proper resolution of a claim. In addition to attorney services the chiropractic clinics in Georgia and Tennessee work closely with car accident injury medical doctors near their clinics. Many accident injuries may require more diagnostic testing such as MRI's to get the proper diagnosis of the patient's injuries.

Injury victims can get more information on their services by going to the company's website at www.arrowheadclinic.com. They can also call the company at their many clinics, including their Atlanta, GA location.
