

New Stainless Steel Garlic Press And Silicone Peeler Released By Integrity Collection

July 29, 2015

July 29, 2015 - PRESSADVANTAGE -

The Integrity Collection LLC have recently launched a new stainless steel garlic press and silicone peeler on Amazon. The listing can be viewed at <http://www.amazon.com/Garlic-Integrity-Collection-Silicon-Cleaning/dp/B00ZDR7CUG>. To celebrate the launch, they're including a free cleaning brush to create a three in one package deal.

Integrity Collection states, "This garlic press and peeler combination comes with everything a chef could need for the proper preparation of garlic dishes. Garlic is such an important ingredient when it comes to cooking. We are very excited to release this product, and I know how much it's going to be used in our customers' kitchens. The addition of the free cleaning brush is also a nice touch, as everybody wants a more hygienic kitchen."

The garlic press is made from stainless steel and is completely dishwasher safe. The 18/10 stainless steel is rust resistant, and the added cleaning brush ensures it is truly clean.

The press is compact and sleek and comes with an easy hanging hook. As such, it can easily be stored away in a drawer, but it can also be hung on display for others to enjoy the modern design. What matters most, however, is that the tool allows users to easily press garlic cloves.

Another thing that sets this press apart is that the cloves can go in skin and all. The skin will remain in the chamber, while minced garlic comes out, ready to complement various dishes. No more worries about smelly or sticky hands.

That said, those who want to get the most from every piece of garlic will need to remove the skin before putting it in the press. This is where the silicone peeler comes in. Just toss in a garlic clove, press down and roll.

"We fully believe in the quality of our products," adds Integrity Collection. "This is why our press and peeler

come with a 100% lifetime warranty, offering either a replacement or refund on any purchase."
