

New Medispa Services Launched By Mediversity Health

July 22, 2015

July 22, 2015 - PRESSADVANTAGE -

Mediversity Health, a recently relocated medical clinic in Turnersville, New Jersey, which guarantees state-of-art medical care for all its patients, is delighted to announce the launch of its new services in cosmetic and aesthetic treatments. The Clinic's MediSpa services were voted by the Courier Post as Best of South Jersey 2015.

Family owned and operated, Mediversity Health was the brainchild of the husband and wife duo, Dr. Ahsan Abdulghani, MD and Dr. Saira N.Ahmed, MD, and has rapidly become a highly regarded Center for Cosmetic Surgery in New Jersey.

Given that rising stress levels and signs of early aging are becoming the usual society norm, affected individuals are seeking desperate measures to turn back the clock, to not only look young, but also feel young and healthy. "As we grow old, the beauty steals inward". - Ralph Waldo Emerson.

Mediversity Health thus promises a safe solution to such health and beauty concerns, with non-invasive aesthetic treatments as well surgical procedures to enhance the client's beauty and body image, and even positively affect the cases of those whose body features were maimed by war, fire, or accidental event. As Edward Counsel, in Maxims, said, "Beauty is but a lease from nature". Mediversity Health is committed to renewing that "lease" to help their patients achieve their "perfect" look and thereby restore their confidence and peace of mind through a number of cosmetic aesthetic services.

Interested clients can now avail themselves to a variety of options from non-invasive lipolysis to microdermabrasion and more. All services provided by the esteemed doctors and nurses of the clinic's staff are specifically designed to fulfill clients' individual needs.

With reference to their numerous cosmetic treatments, the Turnersville Doctor comments, "Tummy tucks, buttocks augmentation, breast implants, all require hospitalization and are far more complex, complicated, expensive procedures. These are the types of operations which we commonly think of as cosmetic, or plastic surgery. Our clinic offers only premium CosmeticAesthetics services exclusively."

The clinic offers its clients laser skin resurfacing treatments, laser surgery for various skin conditions, and treatment for face and skin scarring. These skin programs are planned with the utmost care and assure the patient several beneficial effects in terms of both long-lasting mental and physical well-being. Apart from their famous skin laser treatments, the clinic is also dedicated to providing a complete line of highly personalized Concierge services.

The clinic is fully staffed with Physicians, Nurse Practitioners, Nurses, Medical Assistants, and other Medical Professionals who are trained and equipped to handle all of your diverse medical needs. Those with questions can reach out to the clinic at www.MediversityHealth.com.
