Los Gatos Tree Leaders Announce Newly Available Tree Service In Los Gatos CA

December 10, 2018

December 10, 2018 - PRESSADVANTAGE -

Los Gatos Tree Leaders has announced their newly available tree services in Los Gatos and the surrounding areas. They point out that they offer a range of services for homeowners or building owners who have trees in their yard that are damaged, diseased, or no longer wanted. These new services include tree trimming, tree removal, tree stump removal, and emergency tree services.

Grace Tuckera from Los Gatos Tree Leaders says, "We're happy to announce that we are able to provide various kinds of tree services in Los Gatos and nearby areas. Poorly trimmed trees and mismanaged trees can turn into serious issues. Don't let that happen to you or your trees. Professional service for removal, pruning, stump removal, and more is the best way to go. Trees can form an important part of your home or community so make sure that they are taken care of properly."

Trees can truly make a home or business stand out but they need to be healthy so that they appear attractive and provide benefits to people like providing shade and fresh air. On the other hand, trees that are neglected will have a negative effect on the value of the home because nobody wants to see neglected and dead trees in the yard, not to mention the fact that such trees attract insects and other pests, which could later move

inside the home or building. More information about the services offered by Los Gatos Tree Leaders can be obtained by visiting <https://goo.gl/posts/fVMfR7Ge4AC2>.

Grace explains that mismanaged or neglected trees can cause serious problems. For example, tree branches that are allowed to grow out of control such that they can already touch electric power lines are dangerous. Or if they are allowed to grow over walkways, footpaths or over a street, branches could break and fall down on people, causing injury.

Furthermore, trees that are located near the home can have tree roots that get under the foundation, causing problems with the stability of the foundation and possibly damage water pipes, which are serious problems.

One of the primary services offered by Los Gatos Tree Leaders is tree trimming. They have professional teams who have the experience and knowledge on how to trim tree branches so that trees will remain healthy and attractive. This is because too much trimming can be harmful to trees. Professionals are needed who know the appropriate amount of trimming that is needed for each tree.

And then there is tree removal. The professional teams from the company have the right people and the right equipment for removing dead, dying and unwanted trees. Homeowners or building owners may be tempted to do the tree removal themselves but this is not advisable as this is dangerous work. First of all, it requires climbing, which in itself is already dangerous. Also, a severely weakened tree could suddenly break, causing injury to people or damage to property.

For those who have unsightly tree stumps in their yard, Los Gatos Tree Leaders have the right people and equipment for getting rid of them. Once again, it is not advisable for homeowners and building owners to do the stump removal themselves because the task is very difficult, particularly when they don't have the proper equipment.

Los Gatos Tree Leaders have their teams always ready to respond during emergencies, for example, when trees are downed by strong winds, storms and other events. This kind of work should only be done by professionals with the right equipment. Concerned homeowners and building owners in the Los Gatos or greater San Francisco area can depend on Los Gatos Tree Leaders for such tasks. Their business hours are 8:00 am to 6:00 pm, from Mondays to Saturdays.

Those who need more information about the tree services or who want to schedule a consultation can check out the Google Maps page of Los Gatos Tree Leaders at <https://goo.gl/maps/7kG3YKhGfJz>. The company is always available to provide estimates for any kind of tree service for a particular home and these are offered free of charge.
