

Old World Brick Paving Providing Permeable Paver Services

December 11, 2018

Chicago, Illinois - December 11, 2018 - PRESSADVANTAGE -

Old World Brick Paving company, a premier paver brick installation contractor from Chicago, is providing Permeable Paver Services along with the wide range of services it already provides. Permeable paving is a paving method that is used on pedestrian and vehicle pathways that allows fluids to infiltrate through. The company, Old World Brick Paving, has been a part of Chicagoland since 1993, providing its services to the Chicago community.

Permeable paving is also known by other names, such as pervious paving, gap-graded paving, enhanced porosity paving, or porous paving. In addition to allowing fluids to seep through and reducing surface runoff, permeable paving also helps in trapping suspended solids and filtering pollutants.

Contacted about their permeable paver services, Frank, a representative of the company said "It's practical, true, but it's also beautiful. We have been focusing on this service since we established back in 1993. Our experts are well-qualified in professionally installing permeable pavers. Not only that, we also provide permeable paver maintenance, repair and cleaning. We use top-notch materials and make sure the service we provide is complete. On top of that, we also have a digital design service so that our customer can have a

sense of what the completed project will look like and change any aspects of it if necessary.?

The Old World Brick Paving company is proud of its years of experience in handling Permeable brick pavers for patios walks, driveways, and pool decks. Frank says, "We have been specializing in permeable pavers. Our goal is to beautify the landscape and give our clients a long lasting solution that does not require frequent maintenance. But when maintenance is required, you can be sure that we're the best at that, too.?"

In addition to the superior workmanship provided by the company, Old World Brick Paving also leads in their customer service. Every customer who has used the company's services is glad to speak highly of the company. The company has also consistently earned 5 star reviews on popular review websites like: BBB, Houzz, Google, Yelp, Home Advisor and Angie's List.

Jenna Beasley, a recent customer of the company's services says that "We needed a deck removed and a paver patio installed. Frank helped us with choosing the design and then the selection of stone and their colors. The end result is something I am extremely satisfied with. The team was professional and punctual and they got the job done within time and on budget, despite several last minute changes we made. They're not cheap, but they're worth every dollar we spent on them.?"

About their well-cemented reputation for excellent work, Frank had this to say: "I've been in this business for a good while now and I am very proud of the reputation the company's earned. But the truth is that I didn't want the company to be like a jack-of-all-trades. Rather, we've mastered the one main service we provide ? our competitors are trying to cram in multiple services, but we've been focusing on paver brick installation and only that, since 1993. Being a dedicated hardscape design company provides us the edge we need over landscapers and driveway contractors.?"

The company's bold statement is backed up by almost all reviewers. Yet another reviewer, Leanna from the Illinois area says "Frank and his team were professional, timely and proactively collaborated with the city for inspections and landscaper for planning out our back yard. Old World Brick Paving installed a 600 square feet patio, graded and sodded our entire front, side and backyard. His team was attentive to detail and very hardworking. Frank personally called and visited before, throughout and also after the job was done to make sure everything was up to standard and that we were satisfied. Our neighbor was so impressed with their work, he hired Old World for work at their home.?"

Another customer, James Wesley, was succinct in his praise for the company's services. "Frank's crew was professional, punctual, clean, respectful and they knocked out all the work in just 2 days. No regrets.?"

Old World Brick Paving company's website provides a detailed explanation of all their services and a contact form to get in touch with the company about any and all inquiries. For face-to-face inquiries, getting to the

company's offices is easy, following the Old World Brick Paving directions.
