Fast Eddy Keys Express Publishes Video On How To Get Out A Key Stuck In Lock

December 15, 2018

December 15, 2018 -
Fast Eddy Keys Express has announced that they have recently published a video on how to get a stuck key out of a door. The company, which offers locksmithing services, explains that they see this kind of situation all the time. Fast Eddy himself points out that this is because the tailcap has to be tightened in the lock itself. Or sometimes it may be that the cylinders are shot but this is relatively inexpensive as the cost will just be for the replacement of the cylinder and the trip charge.

Fast Eddy Keys Express is a trusted provider of locksmithing services in Minneapolis, MN. These include automotive, residential, and commercial locksmithing for the Minneapolis area, such as St Louis Park, Richfield, Edina, Golden Valley, Bloomington, Southwest Minneapolis, Uptown, and South Minneapolis.

Edward Mann is the owner of Fast Eddy Keys Express and he got his nickname, Fast Eddy, because he is able to open a lock fast. Fast Eddy says, ?People often find themselves in a situation where they need to get stuck key out of door. That is why we felt it was time to post a video showing how they can easily get the stuck key out of the door. But if for some reason they are unable to do it or if they have any other problem with their lock, we are ready to render our service.?

One of the key services provided by Fast Eddy Keys Express is the lockout service for buildings and motor vehicles. Fast Eddy points that being locked out is surprisingly common as the average person is locked out once every three years. The lockout service is vital because people who get locked out will naturally feel helpless and even afraid. Fast Eddy says, ?These feelings of apprehension are completely understandable and normal. If you ever get locked out do not hesitate to contact Fast Eddys Keys Express in Minneapolis MN. We provide an unparalleled lockout emergency service that is unsurpassed across Minneapolis MN.?

Fast Eddy points out that they also provide free consultation and estimate with every call and can go to the customer in under 30 minutes, depending on the location. He adds that they would also be able to unlock the door in as little as five seconds to five minutes, without causing damage to the door or lock. In fact, if their technician is unable to unlock the door in under 30 minutes, they will provide the service completely free of

charge.

Aside from their locksmithing services for residential buildings, commercial buildings, and motor vehicles, Fast Eddy Keys Express also offers installation and repair services for door hardware. Fast Eddy says that he has more than 30 years experience on all kinds of door hardware installation and repair. While most products will require a template to help in the installation of lock hardware, in many cases, he is able to install the lock hardware by just using his skills and knowledge.

Of course, another important service that they provide is the creation of replacement keys. This is essential for people who have lost their keys. But the question now is whether a lock is really secure because it is easy to make a duplicate key. Fast Eddy points out that one solution is to use the high security products by Schlage Primus. The keys for Primus locks are not sold to anyone but Fast Eddy, thus preventing duplication without the permission of the owner. Furthermore, these door locks cannot be picked. By using products that cannot be bought at hardware stores, people are able to substantially upgrade their home?s security and safety.

Fast Eddy Keys Express was established by Edward Mann in 1991 after his business partnership that has been providing locksmith services in the Minneapolis area since 1985 had ended. Since 1991, they had been operating from a retail shop, which they had to shut down in 2002. At present Fast Eddy Keys Express is a mobile locksmith service where they go to where the customer is located.

Those who want to inquire about the services offered by Fast Eddy Keys Express can visit their website or call them by phone.
