

Express Property Buyers ? Real Estate Consultant In Friendswood Tx Now Buying Houses

December 31, 2018

December 31, 2018 - PRESSADVANTAGE -

Express Property Buyers, a company that directly purchases homes from homeowners without the need for real estate agents is announcing that it is now buying houses in Friendswood, Texas. The company at <https://expresspropertybuyers.business.site/>, deals directly with the homeowners, purchases the houses as is and offers a fair amount of cash in return, without any fees or commissions.

Contacted about their services, Michelle Morrii, a representative for Express Property Buyers said, "Real estate agents, they list properties. They hope that someone will come along, see the listing and buy them. This process can take anywhere between six to twelve months. Even longer. Even then, there is no actual guarantee that an agent will actually sell your house. When we give you an offer, however, there's none of that. We are the actual buyer ? no fees or commission. No waiting for ages to find out if a buyer will come along. We have the funds and we want to buy a house. And we will buy any type of house: multi-family, single family, condo, or townhouse. The only reason we haven't bought your house yet is because you haven't called us. It's a simple process. You call us, we come along and offer a fairly priced offer in writing and buy your house as is, no complications."

Friendswood, Texas located at <https://goo.gl/maps/4ye39eRQadk>, is a beautiful city, which has been listed by CNN in the top 100 for "America's Best Places to Live" in the past. However, despite the city's amazing sights and good living conditions, anyone may need to sell their house for many reasons, including but not limited to: being in foreclosure, going through a divorce, relocating, having a vacant house that needs to be sold. Housing experts are recommending that all owners who are missing or are late on their mortgage payments become familiar with Texas' foreclosure process and the Texas foreclosure laws. This task can be monumental to homeowners who are facing stressful levels of financial hardship. Whatever the reason the house is being sold, Express Property Buyers is ready to buy any houses and take the stress off the homeowner's hands.

Michelle Morrii said, "It's a lot of stress. Selling your house isn't an easy decision to make and there will be many different factors contributing to why you are selling it. We aren't here to make that experience harder. We offer a price we think is fair to you and us, and there is no obligation for you to accept. There is no hidden fees. You don't have to fix up the house to sell it or even clean it up for us to see - trust me, we've seen much worse. We'll clean it, we'll repair it. You just sell it, get the cash and the peace of mind that comes with it."

When asked about her experience, Ariana Basil, a client of Express Property Buyers, said, "I had just gone through a terrible divorce and we wanted to quickly dissolve the property - I wanted to just get away and settle in a smaller place. I contacted Express Property Buyers and to my surprise, we agreed on a price right away and in seven days, we had settled and without any headaches. They treated me with respect, and were compassionate about my situation and held my hand through the whole thing and I really can't say anything bad about my experience with them."

Another client of the company, David Banner said, "I had a rental property in Friendswood and it needed so much work. Too much work, honestly. I was in the process of getting a dumpster to clean out the house that the renters had completely trashed - there were holes in the walls, I tell you, it was a mess. I contacted Express Property Buyers after a quick internet search, looking to just break even if I could. Fixing up would take too much money, money I couldn't afford. A representative of the company came, surveyed and offered a fair price - I could actually make some money. It was a huge weight off my shoulders, I was debt free now. They made it easy for me, they explained everything. They were great."
