Bodycandy.com Announces New 14 Karat Gold Nose Rings And Nose Piercings

July 03, 2015

July 03, 2015 -
Body piercings have become popular of late. No company knows this better than BodyCandy.com. The widely recognized company from Amherst, NY is now offering nose rings in yellow, white, and rose gold.

"Nose piercings have become quite the rage, and we just wanted to keep up with our customers' demands," says Nicole Szymanski of BodyCandy.com. "Our choice to offer 14 karat gold is simply because we want our customers to have the best quality of body jewelry available."

While some body jewelry can cause infection, true gold or sterling silver are good choices, even for those with sensitive skin. Studies have shown that gold is the optimal choice of jewelry for those who tend to break out or react to cheaper, lesser quality materials. BodyCandy.com chose to add 14 karat gold to their lineup as a "means of being able to provide the highest possible quality to our customers," says Nicole.

In addition to 14 kt gold nose rings from BodyCandy.com, consumers can find a wide range of other piercing jewelry and in a variety of materials, all of which are high quality.

BodyCandy.com is the leading supplier of quality body piercing jewelry, and this addition of 14 karat gold jewelry comes as no surprise to any of their customers.
"I won't shop anywhere but BodyCandy.com. You just can't be sure of what you're getting with other suppliers, and I know for a fact that their quality is great," says Tara, a BodyCandy.com customer.

The company also offers piercing jewelry for ear piercings including the widely popular rook, helix and daith piercings, along with belly button navel rings, tongue rings and beyond. They offer a variety of products for men and women, and have something for every personality, taste, and price range.

This newest addition to their body piercing jewelry is a select line of artisan, handmade, and made in the USA, factory direct 14kt gold body jewelry. Those looking for more information about these new nose rings can Follow BodyCandy on Instagram. Facebook users can follow BodyCandy on Facebook. Anyone looking for more information about the benefits of using true gold over man-made materials can visit BodyCandy.com to learn more and to see a complete lineup of their body jewelry selection.
