December 31, 2018 - PRESSADVANTAGE -

Bennett Buys Houses, a real estate consultant firm based in Houston, TX, has announced that they are willing to buy homes in any condition in Houston and neighboring areas. Those who need more information and want to check out their office can visit their Google Maps page at <https://goo.gl/maps/te1aVKGftn92> for directions.

A spokesperson for Bennett Buys Houses says, "If you are in a hurry to sell your home, look no further. We are ready to offer you cash for your home, regardless of its condition. If you truly want to sell your home as quickly as possible, contact us by phone and let's talk. You have nothing to worry about because our office is open 24 hours a day, from Mondays to Fridays. Provide us the details of your property and we will make an offer within 24 hours.?"

Expert home buyers at Bennett Buys Houses are ready to pore over the details of a property being offered for sale. If they find it to be worthy of purchase, they will then make a cash offer. It would then be up to the homeowner to decide whether the cash offer is acceptable.

There are many situations where a homeowner would be motivated to sell a house as fast as possible. These include having a vacant house, a divorce, foreclosure, owning property for rent occupied by tenants who are unable to pay, inheriting a property that is not desired by the heir, being late in the monthly payments, having a home that needs repairs but the owner does not have enough budget, having a home that has been ravaged by a fire. Whatever the case maybe, the company would like to help the homeowners. Nevertheless, they would like to advice homeowners to always check the reputation of the company that they are dealing with. Bennett Buys Houses would like to explain to homeowners that they don't have to worry about the offered price being reduced by hidden fees or expenses. They will really get the amount that has been offered in cash. The spokesperson adds, "Homeowners in Houston or neighboring areas can call us anytime during weekdays. Meanwhile, the problem that is often experienced by homeowners in selling a home through a real estate agent or them actually selling their property directly to retail buyers is that the process could take several weeks. And what could be worse is that the buyer may suddenly back out on the deal and the homeowner is left wondering why he is back right where he had started weeks ago."

Bennett Buys Houses has made it their mission to speed up the process of selling a home for homeowners. First of all, the owner has to contact the company to inform them that they have a property for sale. Then, the company evaluates the various details of the property being offered for sale as provided by the homeowner. Using those details, they company sets a fair price and makes an offer to the within 24 hours after the homeowner has made contact. Now the ball is in the court of the homeowner. He will inform the company whether the offer is acceptable or not. If the offer is acceptable to the homeowner, the company will close the deal and the cash is given in seven days or less.
