

Real Estate Consultant In Memphis TN Buys Homes Fast

December 31, 2018

December 31, 2018 - PRESSADVANTAGE -

Parker & Sons Homebuyers, a real estate consultant based in Memphis, TN, has announced that they are ready to buy homes from homeowners without the need for real estate agents. The company wants homeowners to know that whatever the particulars of the property, they are ready to make a cash offer within just 24 hours. Those who need more info about the offer can visit their website at <https://parkerandsonshomebuyers.business.site/>.

A spokesperson for Parker & Sons Homebuyers says, "Let's face it, while the process of selling your home through traditional means can work for some people, it isn't inherently a perfect system for everybody. For example, nothing eats into your bottom line like a home that is in considerable need of repair. At the end of the day, selling your home can be pretty darn expensive. Obviously, the main idea behind selling your home is to generate the best possible profit. In many situations, this is not the end result for Memphis homeowners who are selling. Certainly, there must be a better way. We can take your home off your hands in seven days or less. Contact us to get started. We are open 24 hours from Monday to Friday."

With the traditional way of selling a home, even the process of looking for someone to handle selling the

home can take a long time. In addition to that, the process of looking for buyers will take an even longer time. And each potential buyer will want to take a look at the home. Furthermore, the homeowner will need to make sure that the home will look presentable. Thus, there will be expenses for repairs and in dressing up the home. And to add more complexity to the problem, the home seller will need to go through the process of showing the home to potential buyers several times because many people who will look at the home will likely end up not being interested for some reason or another.

Thus, what Parker & Sons Homebuyers is offering is way to fast track the home selling process. This is a particularly attractive alternative especially for those who are in a hurry to sell their home, for whatever reason. Those who want to visit their office can check out their Google Maps page at <https://goo.gl/maps/yCwSiBwZvuN2>.

One example where it is imperative to sell the home as fast as possible is when a couple is getting a divorce. If neither spouse has any desire to remain in the family home or neither is capable to buying out the other, the best alternative will be to sell the home. Selling the home fast would be preferred by both spouses so that they would be able to complete the divorce proceedings fast and get on with their lives.

Another example of when the homeowner would want to sell the home as quickly as possible is when the home is in danger of foreclosure. The offer to buy the home fast without need for a real estate agent would be a good solution for the homeowner because there won't be any need to pay any real estate commissions or closing costs. Parker & Sons Homebuyers can buy the home, pay off the creditors, and the homeowner gets away with as much money as possible.

Another situation where the proposal of Parker & Sons Homebuyers can help is when a person wants to sell a home that is occupied by tenants. Such a home would be difficult to sell because buyers who plan to occupy the home would want to home to be vacant before they purchase it. Unfortunately, the homeowner would not be able to force the tenants to leave if they have a lease. Parker & Sons Homebuyers offers a possible solution by purchasing the home even if there are tenants in place or even if the tenants are behind on rent and they are in the process of being evicted.

Those who want more information of who would like to consult with Parker & Sons Homebuyers can check their website or the web page <https://www.pressadvantage.com/organization/parker-sons-homebuyers>.
