Burlingame Tree Leaders Provides Safe Tree Service

December 31, 2018

December 31, 2018 - PRESSADVANTAGE -

Burlingame Tree Leaders, a company providing tree pruning and removal services out of Burlingame, California would like to announce that they are now also providing all the services required to keep trees healthy and looking good. The company provides professional and full service tree servicing to all residents around Burlingame and the greater San Francisco Bay area.

When contacted about the services of the company, Anna Knox, a representative for Burlingame Tree Services said, "Trees require maintenance too. You want to have your garden looking its best, and that's not possible if you don't look after the trees. Poorly trimmed or poorly pruned trees can cause a lot of issues. To make sure your trees are healthy and looking good, you need to trim and prune them regularly. Burlingame Tree Leaders provides that service for you. We have the experts who can take good care of your trees."

In harsh weather conditions, especially with wind and rain, the possibility of loose or dying branches falling and injuring people, or causing damage to properties is a significant danger. In addition, trees that are dying can be very unsafe as they may fall or break down at any moment. Trees can be a potential problem to any building or structure if they are growing too close to the foundations, the roots of the tree will push against the foundations, causing it to become unstable and ultimately collapse.

"Many people don't know or willingly overlook this fact," Knox said. "They don't think trees can be dangerous, or that when accidents do happen, they must be rare. However, it must be noted that a branch breaking or tree falling down on a private property isn't newsworthy, so people just don't get to hear about the accidents that do happen. When the foundation is damaged, they usually take a while to be found. It is far better to be safe than sorry. Just maintain your trees."

Burlingame Tree Leaders is located and mainly provides services around the Burlingame area at <https://goo.gl/maps/HBWMHBEhNhA2>, the residents of the area who have used the company's services are very pleased with the company and their staff.

James Iver, a homeowner in Burlingame, said, "My wife likes to maintain the garden and I like to keep her happy. Some of our trees were getting a bit to the point of not nice to look at, so after a quick search, I found the Burlingame Tree Leaders and contacted them. They came by, provided a free estimate, and once we agreed on the work and the price, they got to work pretty much right away. The work was done within the week and even I have to say, you could really see the difference. I would easily recommend them for anyone looking to maintain their garden."

Another client of Burlingame Tree Leaders, Joanna Carter, said, "We needed a few trees removed in our backyard. We were doing some renovations and we wanted to build something for the kids outside, the trees were in the way. A friend of ours told us about Burlingame Tree Leaders and we contacted them. They got the work done, in good time and under budget. The people were punctual, disciplined and pleasant to work with. Actually, we are planning on hiring them again to trim and prune some of our trees."

Anna added, "These things are best left to professionals. I understand that some people may feel like they can get the work done themselves and reduce the costs. If you know what you are doing, sure, go ahead, but this is a whole industry. We have professional arborists which are people who know their way around trimming, pruning, hedging or outright removing trees. People who know how to keep a tree healthy. If you need your trees taken care of, reach out to us instead of doing it yourself. It can be dangerous and it's likely that you will hurt yourself or someone else. We offer a wide range of trimming and cutting services depending on your specific needs and the species of your particular trees."

The company's website contains more information on the company and the services that they provide. Additional information about Burlingame Tree Leaders can be found at their Press Advantage Media Room at <https://www.pressadvantage.com/organization/burlingame-tree-leaders>.
