Edina Locksmith Has More Than 30 Years Of Service

January 01, 2019

January 01, 2019 -
Fast Eddys Keys Express has announced that they have been serving the first ring suburbs of Minneapolis, Minnesota, including the city of Edina since 1985. One of their key services is the lockout service, which includes building and vehicle lockouts. They are able to re-key locks and also install or repair hardware. They have noted that people finding themselves locked out of their house or car is a common occurrence. That is why they are ready to provide emergency locksmith services.

Edward Mann, owner of Fast Eddys Keys Express, says, ?If you need an emergency locksmith please give Fast Eddys Keys Express a call for a free estimate and prompt professional service today. Call the best and enjoy the peace of mind that comes from working with true professionals. Satisfaction guaranteed. Our hours are 7:30 am to 7:00 pm, Monday to Sunday.?

According to Edward Mann, who was given the nickname of Fast Eddy because of the speed with which he can easily unlock a door, the most common cause of people being able to enter a house with a locked door is the duplicate key. For instance, the homeowner may have given the painter or maid a key temporarily. The problem is that such keys can easily be duplicated in any of a number of places. His recommendation is to have those standard locks replaced by high security products like those offered by Schlage Primus. The Primus keys and locks are only available through Fast Eddy, which ensures that there would be no unauthorized duplication of the keys.

Fast Eddy has extensive experience in the installation and repair of locks. Recently, he has even published an instruction video, where he shows how to get a stuck key out of a door. Since this is also a common occurrence, he thought that it would be a good idea to show people how get that stuck key out of a door lock. He often shares locksmith tips to help people because he believes that he is there to serve.

Aside from locksmith services, Fast Eddys Keys Express offers other related services including the creation of replacement keys; lockout services for cars or houses; doors and security hardware; and the repair, upgrade and cracking of safes when necessary.

For locksmith services, the company offers emergency locksmith services, car locksmith services, and residential and commercial locksmith services. They also offer door hardware installation or repair. Fast Eddy points out that the security of the house or building is dependent on the door lock, which could be depending on a little thing such as the length of the screws that are holding the strike plate into the wall or door. He suggests that building owners and homeowners spend a few more dollars just to have the appropriate security and peace of mind.

Another important aspect of security is key control. It is possible that people could be entrusting their keys to people who could have the keys duplicated. Fast Eddy explains that what is needed is a key that is virtually impossible to copy by the usual shops. He suggests the Schlage Primus lock and key system that is only available through him. Thus, no other people would know how to duplicate a Primus key. And because he would never duplicate the key for anyone other than those who are authorized by the owner, homeowners and property owners have peace of mind that no one has an unauthorized copy of the key.

Another possible solution for upgrading the security of the door lock is the use of keyless entry locks. And since Fast Eddys Keys Express has more than 30 years of experience, they know the best kinds of keyless entry locks for every situation.

Those who want to know more about the locksmith services offered by Fast Eddys Keys Express in Edina, MN, and other neighborhoods of Minneapolis, such as Saint Louis Park, Bloomingston, Richfield, South Minneapolis and Southwest Minneapolis, can go to their website or contact them by phone.
