

Electric Staplers Used as Popular Office Accessories

December 29, 2018

December 29, 2018 - PRESSADVANTAGE -

When working in an office, there are certain products and that most people keep at their desk or in their office workspace to help them work efficiently. EcoElectronix is an admired brand by many office workers as they provide reliable electric staplers and other office supplies. The powerful and compact EX-25 electric stapler is their top-selling product and is used in many different workplaces.

The EX-25 automatic stapler is one of the best office accessories because of its multi power options and high-performance. For a compact stapler, it can still staple up to 25 sheets at a time and can be powered through batteries or the included AC adapter. Seth Allen, owner of EcoElectronix comments on its capabilities.

?We get a lot of emails and reviews from customers who are blown away at how much power the stapler provides. Of course, there are other very powerful staplers on the market that can staple 30 plus pages at a time however, they are much larger than our stapler and are not always office friendly because of how loud they are.?

Seth added, ?The EX-25 electric stapler is quiet so it does not disturb other people working and it can comfortably fit on small desks or in cubicles.? The electric stapler is sold on Amazon.com where it has over

800 5-star reviews from customers who have purchased it. It comes in two colors, black and white and also includes a lifetime warranty. If the stapler is defective, breaks, or is damaged, EcoElectronix will replace it for free without any hassle.

One of EcoElectronix customers wrote a review stating that the EX-25 is a time-saver in the office. ?We have been using these in our office and warehouse for about a year. They save our business lots of time so we can ship orders to our customers faster. Instead of picking up, stapling, and setting down a manual stapler all day long, workers simply slide the stack of paper into the EX-25 and it does all the physical labor for them. This is a much more ergonomic way to work day after day. Another plus is its battery life. We have yet to replace the 6 AA batteries on a single unit after thousands of staples going through some of our office units. Overall these are workhorses that save time.?

To purchase electric office staplers and desk supplies, readers can visit Amazon.com where the EX-25 is available for \$39.73 with free two-day shipping for Prime members.
