

# Saskatoon Dentist Is Accepting New Patients And Is Now Open Saturday

*January 02, 2019*

January 02, 2019 - PRESSADVANTAGE -

Saskatoon, Saskatchewan based Willowgrove Dental is pleased to announce that they now accept patients on Saturdays in their newly upgraded dental clinic in Willowgrove Square.

As noted on their website at <https://willowgrove-dental.ca>, they currently offer a variety of dental services and procedures, including tooth whitening, restoration, root canal therapy, oral surgery, dental implants, orthodontics, Invisalign, and treatment for sleep apnea.

Willowgrove Dental has a team of experts who specialize in preventative and restorative dental needs for children and adults alike. Their dental therapists have also developed an effective method of lowering a child's anxiety, so that the whole dental procedure results in a more positive and rewarding experience for both parents and children. In addition to this, they have registered dental hygienists whose main focus is to educate patients on the importance of maintaining good oral health, and provide an individualized treatment depending on their specific needs. Furthermore, they are trained and knowledgeable in providing preventative dental care, including oral cancer screening and dietary consultations, as well as helping patients choose the most appropriate over-the-counter products that best address their oral conditions.

Specialists from Willowgrove Dental also issued a public advisory on how to achieve, and maintain, good oral and dental health. Besides the basics, such as brushing one's teeth twice a day, using dental floss to remove food residue between individual teeth, and gargling antiseptic mouthwash to kill germs and bacteria, they highlight the importance of regularly visiting the dentist. This is especially recommended when red, tender, swollen, or bleeding gums are present, for they may cause serious dental health issues when not addressed immediately. Additionally, proper preventative dental care results in more financial savings in the long run, on top of the benefits of early detection and prevention of cavities, gum problems, and even cancer.

Willowgrove Dental is pleased to announce that they also accept and recognize dental insurance. However, they advise patients to check their dental policy coverage beforehand to avoid any inconvenience during their appointment. They encourage patients to connect with them through their official website, or call their clinic's

hotline should they have any questions, or need any clarification, regarding their insurance coverage. More details can be found at <https://willowgrove-dental.business.site>.

Those who are looking for a professional and reliable dental service provider may consider Willowgrove Dental. They offer an array of aesthetic and specialized dental solutions for a healthier, and more beautiful, smile. They are also regarded as one of the best oral and dental specialists in Saskatoon and the surrounding areas based on their positive reviews and recommendations online.

Aileen Kimberle, in a Facebook review, said, "I had a great experience at Willowgrove Dental. The staff was very welcoming, polite, and professional. The dentist and hygienist did a wonderful job and walked me through each step of my visit. The way they treat patients is definitely comforting to people like me, who do not usually enjoy going to the dentist. They have also given me useful tips on how to keep my teeth and gums healthy. Lastly, their brand new clinic was really modern and clean when I visited. Highly recommended."

"My seven-year-old son has a medical condition, and all our previous appointments elsewhere have not very well. Surprisingly, he was comfortable sitting in the dentist chair this time, and was happy to have his teeth checked at Willowgrove Dental. My own hygienist was fabulous, and he was so gentle and efficient. I highly recommend Willowgrove Dental because they have friendly and inviting staff, as well as a modern, beautiful, and clean office. They can surely take pride in their work and facilities," says Shawna Young-Quintin on Facebook.

Those who would like to find out more about Willowgrove Dental may visit their official website to check out the full list of dental services and procedures that they currently offer. It can also be used to schedule an appointment, as well as view more information about the clinic's billing and policy regarding dental insurance. Moreover, the general public is encouraged to visit the new Saskatoon clinic to enjoy their state-of-the-art facilities as well as their child-friendly amenities. Interested parties may also connect with them through their official social media pages on Facebook and Instagram to learn more about their latest news and important announcements.
