Pregnancy Stretch Mark Cream Sale Ending Soon Announces Bella Joi

June 28, 2015

June 28, 2015 - PRESSADVANTAGE -

Earlier today, Bella Joi, a prominent online beauty product retailer, announced that their pregnancy stretch mark cream would be ending soon. The sale provides shoppers \$10 off the regular retail price of the lotion for pregnant women.

"We want everyone to know that our stretch mark cream treatment sale that is currently running at Amazon will be ending soon. We started this promotion because we want to show everyone how grateful we are that a lot of people use and like our product and to give others a chance to see for themselves how well the product does," says Bella Joi Beauty representative, Holly Richards. "While nothing can prevent stretch marks during pregnancy from forming the cream does help prevent the marks from becoming permanent scars on the skin in large part due to the cream's nourishing and moisturizing ingredients."

Bella Joi's cream has been one of the most talked about products in recent weeks. This may be attributed to the countless number of good reviews that it has received so far. Moreover, it also helped that the reviews usually come from pregnant women who are known to be very vulnerable to stretch marks formation. One recent Amazon review says, "I recently had a baby and noticed some new stretch marks pop up on my

belly/hips after I started to lose some of the weight. So I've been trying out various creams and Bella Joi's is the best one by far. I've already noticed a reduction in how red my stretch marks are after a couple of weeks of use. This cream also leaves my skin so smooth and soft. I ran out of my normal body lotion and decided to use this one until I could buy more of my regular lotion later that day. My entire body felt and looked so smooth and hydrated. If this came in a larger size I would buy it for my entire body because it's that great. Also, the ingredients in this are so awesome and good for your skin."

Again, Bella Joi would like to remind their valued customers that their sale for the pregnancy stretch mark cream found on Amazon at <http://www.amazon.com/Bella-Joi-Stretch-Mark-Cream/dp/B00MSZNAWK/> will be ending soon. Customers who are intending to give them away as gifts will surely want to take this opportunity to save more money during purchase.
