

Stretch Mark Removal Cream Sale Ends in Three Days

June 28, 2015

June 28, 2015 - PRESSADVANTAGE -

Bella Joi announced earlier today that their stretch mark removal cream sale will end in three days. The promo, which had been extended due to customer demand, will be ending this week and the stretch mark cream will return back to its original selling price. The big discount was the company's way to show how grateful they are for those who have chosen their product from among the many other stretch marks remedy options in the market today as well as to encourage those who may be new to Bella Joi to experience the benefits of the pregnancy lotion for themselves.

According to Holly Richards, Bella Joi's representative, buyers who are looking for a product for their pregnancy scars who do not want to let the opportunity pass will still have three more days to get the cream at a discounted price. "We would like to remind you all that the promo will be ending soon. We would also like to take this opportunity to thank everyone who has already participated in our sale promotion to date." Furthermore, she said, "As many of our customers know our stretch mark cream is helpful in removing stretch marks that are red before they become white and permanent which is what many of our customers look for in a pregnancy stretch mark lotion so we are pleased to know they benefit from getting that at our sale price."

Bella Joi has been gaining loyal customers everyday and has also been the recipient of many positive reviews at Amazon such as this one given by Valerie Antonio, which says, "I absolutely love this Bella Joi

Stretch Mark Cream. The cream itself is kind of thick and smells so good. The center is not a strong so it's not overwhelming at all. When you apply it to your skin it feels so good. You get kind of like a tight smooth feeling. I have noticed some of my stretch marks are starting to fade. I am applying about three times a day, in the morning, when I come home from work and then again before bed. I definitely recommend this stretch my cream."

Aside from good customer service, the company is proud of the quality of their cream. The product, which was formulated by a naturopathic doctor, contains moisturizing butters, oils and antioxidants. In addition to these, it also has Capric Triglyceride, which does not only help moisturize the skin, but prevent greasiness as well.

When the sale promo ends in three days, Bella Joi's stretch mark cream at <http://www.amazon.com/Bella-Joi-Stretch-Mark-Cream/dp/B00MSZNAWK/> will be back to its original selling price, which, according to many users, is still very affordable compared to other brands in the market today.
