

## **Infinet Lash Products Provides Instructions On How To Answer Your Clients' Questions About Eyelash Extension Glue**

*January 03, 2019*

January 03, 2019 - PRESSADVANTAGE -

Infinet Lash Products, based in Del Mar, CA, has posted a blog post to offer instructions on how eyelash extension professionals can answer their clients' questions regarding eyelash extensions. Infinet Lash Products is offering an eyelash extension glue, with an extra strength formula that permits the eyelash extensions to remain in place for up to 7 to 8 weeks.

Tasha Land, professional lash artist and founder of Infinet Lash Products, says, "We have released a video and a blog post to make sure the eyelash extension professionals would know how to answer questions from clients. For instance, one common question would be regarding the material from which the lashes are made of. Our Infinet lashes are 100 percent made from polyester fiber. By reading the blog post and viewing the video, eyelash professionals would know exactly how to answer such questions."

The Infinet Lash Products glue for eyelash extensions has a record drying time of one to two seconds, allowing eyelash professionals to service their clients much faster and more efficiently. Volume eyelash extensions need to have a quick drying eyelash extension adhesive in order to maintain consistency in the

volume fans. This glue has been observed to be best used for Volume lashes but it can also be used for Classic lashes.

Another important question that may likely be asked by clients is how long do eyelash extensions last. There is no single answer as this can vary from person to person, depending on how fast a person's natural lashes grow, her lifestyle, and how the eyelash extensions are cared for. According to Tasha Land, at their lash studios, most clients would return once a month, while some like to return sooner. She points out that it is vital to follow the after-care instructions that have been provided to make sure that the extensions will last longer.

Meanwhile in the YouTube video, step-by-step instructions are provided on how to apply Volume eyelash extensions. However, viewers are advised that the video is only for informational purposes and they should not try them without proper training.

On the Amazon product page, the Infinit Lash Products glue for eyelash extensions has already received almost a 200 reviews with most of them being five stars. One Amazon customer, who gave the product five stars, said, 'I've been a professional lash artist for over 4 years full time and I love this adhesive. It's easy to work with, fast drying (but not so fast that you cannot make a correction if necessary) and has a great retention. I've been using it on my clients for 9 months now and I've only had one client get a 'reaction'. However we are now fairly sure it was due to her seasonal allergies and unrelated to the adhesive because now she has given it another go and is doing fine....?'

Another Amazon customer who also gave the glue a five star rating, said, 'I have been lashing for 6 years. I started using this glue about 6 months ago and when I did... my business blew up. I am no longer even able to take any new clients, I am so busy! This glue truly changed my life and im not being the slightest bit dramatic. I am in East Texas and keep my humidity at 40-55% with and without humidity control, depending on the weather. This glue performs it's best in this humidity range. I cannot say enough good things about this glue. Consistency of the glue is perfect....?'

Each bottle of this glue for eyelash extensions has a nozzle that prevents the contents from leaking so that there are no spills. It also has a double blocking system that prevents the liquid from getting in contact with air and hardening, thus extending its life span even if it is frequently used.

Infinit Lash Products makes sure that all of the adhesives for the application of eyelash extensions are free from latex and formaldehyde to ensure that clients will have peace of mind. Every product has been personally sourced and salon tested to ensure the quality.

Those who want more information regarding eyelash extensions can visit the company website or contact

them by telephone.
