

Auto Window Replacement Company Announces Service Expansion

January 04, 2019

January 04, 2019 - PRESSADVANTAGE -

Area Wide Auto Glass in San Antonio, Texas, has announced that they are expanding their service reach. The company states that they are now providing services throughout the greater San Antonio area and outlying regions. They state that they have added new staff members and more trucks in an effort to meet the needs of more customers in the area.

Joe Sparks, a representative for the company says, "We are thrilled to be announcing this expansion. Not only have we hired new staff members, we have provided more training to the new and existing staff to help them to help our customers more efficiently. With our new staff and with more trucks on the road, we can handle more appointments on a daily basis."

Sparks says that the company has recently purchased a number of new trucks so that customers will have shorter wait times when they need assistance. He says that more trucks allows them to help more people with their window glass replacement needs. The company currently provides replacement windshields, back glass and side glass and state that they only hire certified, trained technicians to assist their customers.

?We have had to hire additional staff members in order to keep up with all of the calls,? says Sparks. ?Of course, this just means that there will always be someone available to assist our customers with their window replacement needs. All staff members are thoroughly trained and certified glass technicians and are friendly, trusted professionals.?

Those interested in interacting with the company can visit Area Wide Auto Glass on Facebook. Sparks states that there are a number of customer reviews on their official Facebook page where consumers can get a better idea of the professional services that the company provides.

Sparks states that the company offers a free vehicle pickup service and on-site window replacement. In most cases, he says that the company can get the vehicle back on the road with the replacement glass firmly in place in about an hour. Those interested can contact the company directly to request a quote for the cost of the service.

Sparks states that they provide windshield replacement for those who have cracks or complete breaks in the windshield and says that they use only the highest quality of materials and glass for all of their replacements. All replacements are carried out only by certified technicians who have been trained and can replace windshields in any car, truck or SUV on the market.

Sparks states that broken glass in any vehicle can be dangerous. Whether the window has been cracked or broken by an accident, theft or by flying debris, he states that the company can quickly and effectively replace it, making the vehicle safe once again. He says that they offer services for those who are looking to sell vehicles, as well, replacing broken or cracked glass so that the owner can get a higher price from the sale. The company boasts their quality quick process which in most cases, has the job completed and the vehicle road ready in about 60 minutes or less.

The company serves San Antonio, Houston and the surrounding areas from their convenient San Antonio location. Sparks states that they credit their customers with their expansion. He states that because of their customers and the reputation that the company has built over the years, the expansion is now underway and says that the company may very well expand even further in the future as the need arises for more staff and more trucks on the road. Those who are interested in learning more about the San Antonio based company can visit them on their official website. Those in need of vehicle glass replacement for any reason can contact the company directly for a quote or visit them at their storefront location. More on their service areas and direct contact information to schedule a service can be found on the company?s website.
