

5-Star Rated Pencil Sharpener by EcoElectronix Available for 2019

January 03, 2019

January 03, 2019 - PRESSADVANTAGE -

EcoElectronix, a company that is focused on offering products that are eco-friendly and sustainable, has introduced the EX-20 electric pencil sharpener available for the New Year. The pencil sharpener can be used by kids and adults of all ages and is said to be the best pencil sharpener on the market for colored pencils.

The sharpener is sold and purchased exclusively through Amazon and features many 5-star reviews from satisfied customers. EcoElectronix customer Gaye wrote a review stating that the EX-20 was by far her favorite.

?I have purchased a number of pencil sharpeners to use with colored pencils. This, by far, is my favorite. I use this sharpener with Polychomos, Tomboy Irogitens, Lyra Rembrandts, and more and have yet to have any breakage. There are two things I like. First, you can set the point from blunt (which is still pointy but not a long tip) to super pointy. Second, once you set the desired tip setting when the pencil is done sharpening, the EX-20 stops. Even if you press down hard in the opening, the unit will not over sharpen and chew up your pencil. As a bonus, the EX-20 is battery operated. There is nothing I do not love about this pencil sharpener and I no longer use my KUM, T'Gaal, M&R, Prismacolor, and other sharpeners. Highly recommended

for all colorists.?

The small pencil sharpener is easily portable and can be used in any location due to its multi-power options. When purchasing products from EcoElectronix, customers are backed by their lifetime warranty that is included in every purchase. If there is a defect or problem with the pencil sharpener, EcoElectronix will send a brand new replacement free of charge.

Seth Allen, owner of EcoElectronix shares the company's mission: "Our purpose is to produce top quality electronic products using sustainable manufacturing practices. Many of today's electronics, unfortunately, are produced without the future of our earth in mind. We are changing that by raising the standards and improving the methods by which our electronic products are made."

In addition, Seth said, "We donate every year to responsibly run environmental charities including Rainforest Alliance and Earthjustice."

To purchase the EX-20 electric pencil sharpener, customers can visit Amazon.com where it is available for \$24.73 with free shipping and lifetime warranty included.
