

Electric Pencil Sharpener for All Ages Launched by EcoElectronix

January 05, 2019

January 05, 2019 - PRESSADVANTAGE -

EcoElectronix, the manufacturer of quality home and office supplies, has introduced the EX-20 all ages electric pencil sharpener. The electric pencil sharpener is suitable for work use and classroom use. Many teachers have reported positive feedback on Amazon.com from students using the pencil sharpener.

In October one of EcoElectronix customers who works as a teacher wrote, "Got this for my classroom and it works wonderfully. Our other sharpener does not do well on colored pencils and this one is amazing. I love that I can put batteries in it instead of having it always plugged in. The dial on the side for sharpness is great, students always like to have their pencils pointy sharp but they often break quickly, I can adjust it on here and they know when it shuts off that's it and it's ready to go. Definitely worth it!"

EcoElectronix is a family owned business that manufactures high quality home and office supplies, such as tools, accessories, and stationery, it then sells them at affordable prices on Amazon. The company's manufacturing process, as the name suggests, revolves around environmentally friendly practices to deliver products with minimal carbon footprint.

Every year EcoElectronix donates to responsibly run environmental charities including Friends of Earth, Rainforest Alliance, and Earthjustice.

The EX-20 Amazon pencil sharpener features many reviews from customers with all different professions. EcoElectronix customer Bradley gave a 5-star review and said, "This little sharpener has a lot of power. I use it professionally almost every day for colored pencils and love it. I really like that I can choose to have it plugged in or battery operated - super flexible and small enough to take with me. I also needed to contact the company directly and they were prompt to reply and were AMAZING to deal with."

The classroom pencil sharpener features many handy settings such as battery operation as well as an AC power adapter, safe-sharp safety function that prevents the sharpener from being used if parts are missing, and an auto-sharp light indicator to detect when the pencil is sharp.

Readers can purchase the EX-20 sharpener on Amazon.com for \$24.73 with free shipping and a lifetime warranty included.
