

VitaVersa Announces New Summer Pricing For Milk Thistle Liver Cleanse

July 03, 2015

July 03, 2015 - PRESSADVANTAGE -

Elkhart, IN health product company VitaVersa, announced today that they will be offering a summer promotion on Amazon. Any customer who purchases 2 of the company's milk thistle liver cleanse products will receive a VitaVersa Forskolin product for free.

"We believe so much in these products and the benefits that they both offer and since summer is the time when most people choose to get healthy, we thought that a summer sale would be just the thing for helping our customers reach their health goals" states Freda Peters of VitaVersa.

VitaVersa's milk thistle contains Silymarin, which has been proven to help renew damaged liver cells. It offers antioxidants that can help users to fight fatigue, and many have found it to be very effective in relieving symptoms of hangovers. It offers a wide range of other benefits as well.

A properly functioning liver can mean better looking skin, improved heart function, and a wealth of other benefits. An effective liver cleanse can help to rid the liver of toxins that can otherwise make consumers feel ill.

"The liver does much more than many people realize", states Stacey Thurman, MD. "By allowing toxins to accumulate in your liver, you are basically bogging your body down with harmful chemicals and other reactants that are going to make you feel, and even look, sick. Flushing out your liver is a great step in the

right direction with regards to healthier living."

VitaVersa's summer promotion can be found on Amazon at <http://www.amazon.com/dp/B00R9UWVPG> It provides a free Forskolin product, which has been used for centuries to help fight infection and recent studies have shown it to also be a powerful tool in the weight loss battle.

Proponents of Forskolin claim that it can aid as a defense against diseases and certain health conditions such as glaucoma, asthma, cancer, and various allergies. It is a natural supplement that is commonly used as an organic means of regulating blood pressure and helping to burn fat.
