

Easy Move Removals Swansea Expands Removal Van Fleet

January 07, 2019

January 07, 2019 - PRESSADVANTAGE -

Swansea based home removals company, Easy Move Removals, is expanding its removal van fleet to accommodate the growing demand for large house removals as well as commercial removal services.

The city's fastest growing removal company has made the investment in a larger fleet in response to an increased demand for home removal services, particularly for bigger homes across the SA2 and SA3 area.

The company has an excellent reputation for delivering removal solutions for domestic and commercial customers across the Swansea Bay area. With more demand for bigger moves, the fleet expansion is a natural move for the expanding company.

Wayne Florance, MD of Easy Move Removals explained: "Easy Move continues to grow and with that has come to a pressing need to improve our move capacity. We've been considering expanding our fleet for a while and with this investment we can now provide more support for large domestic moves and office moves."

A larger fleet with a bigger moving truck will provide a lot of benefits for Easy Move removals, allowing them to improve upon and roll out their services to a wider geographical reach.

“Having a bigger vehicle will make it a lot easier when taking on larger jobs and moving longer distances. It will also allow us to improve our national moving service, putting us in a position where we can offer better rates per cubic feet to the client,” continued Mr Florance. “Having a larger vehicle is also good for general office moves as we’ll be able to fit a large number of crates in it, especially heavy crates that tend to hold important documents such as files.

“Our main goal is to better the services that we currently provide. We’ve reached where we are today by always holding ourselves to the highest standards and striving for excellence. By adding a large vehicle to our fleet we’ll be taking a couple of steps forward in that regard, cementing our position as the number one moving team in the area. Ultimately, it all comes down to giving our customers more convenience and move options.”

Easy Move Removals are based on Fabian Way in Swansea and have experience in working with individuals, businesses, and organisations to help them to move their prized possessions efficiently and effectively. They also provide professional packing, storage and removal solutions for any type of removal requirement.
