

SimplyComforts Introduces Plush And Cute SoftPillow To Inspire And Let People Cuddle And Relax In Comfort

July 10, 2015

July 10, 2015 - PRESSADVANTAGE -

Middleton, WI-based SimplyComforts has released the SoftPillow line on Amazon, at <http://www.amazon.com/gp/product/B010D07U36>. The pillows are incredibly cute and they are designed to inspire people to find joy, love and faith in today's hectic and chaotic world. The company hopes that more people will be able to relax in comfort and simply find themselves again.

"The world we live in today is all about being rushed, working two jobs and paying the bills," says Comfort Eruchalu from SimplyComforts. "We seem to have forgotten to exhale every once in a while and to just relax and take pleasure in the simpler things in life. We want to bring change to this and give people the opportunity to find the things that matter in life: joy, love and faith."

SimplyComforts has released three versions of the SoftPillow. Each of them looks like a little cloud. They are so cute that they often bring a smile to people's faces before having even touched them. The first is the heart-shaped cloud with "love" embroidered on it in brown color. It also has a smiley face in the same brown color.

The second pillow, which can be seen on <http://www.amazon.com/gp/product/B010CTH3P8>, is the light purple "faith" pillow. The face on this particular pillow is more relaxed, albeit equally happy. The final pillow has the word "joy," which is presented in a soft yellow with bright yellow lettering and, needless to say, a very big smiling face.

"These pillows are perfect as travel pillows as well," adds Comfort Eruchalu. "They are small and super soft, as well as being machine washable. This means that people can take them with them wherever they go, and spread their messages of joy, love and faith to the world around them as well."

Each pillow is designed to be incredibly comfortable, whether by placing it behind the neck for extra support or by simply cuddling it for comfort. While very popular with children, the pillows, including the joy version on <http://www.amazon.com/gp/product/B010CZ94K4>, are equally popular with adults. After all, adults are in need of some relaxation as much as anyone else.
