Credit Advisors Council Provides Consumers Credit Counseling Services To Help Fix Their Credit

January 14, 2019

January 14, 2019 -

Orlando, FL ? Credit Advisors Council is one of the best credit repair companies whose credit advisors, credit consultants and credit counselors are working to raise awareness about the financial impact of a consumer's FICO credit score on their financial situation and the need to monitor, fix and build credit, especially in these difficult economic times.

Recently, Capital One Financial Corp. (NYSE:COF) released a study which reiterated that credit is not just a number but, it is highly personal and emotional and often is a product of deep rooted attitudes, behaviors and beliefs. Some of the findings are that eighty six (86%) percent want to increase their credit score; eighty two (82%) percent are willing to do what it takes to improve their score; seventy six (70%) percent feel that having good credit is the key to unlocking the "American Dream"; almost sixty six (66%) percent feel that individuals with good credit receive special treatment and it is perceived that people with bad credit are treated as second class citizens.

?A consumer, through credit counseling services, can receive debt relief, guidance to manage debt and money according to their needs and help to become fiscally responsible by developing a budget. In addition

to helping consumers fix their credit, our credit advisors can help them build credit and provide assistance by negotiating directly with collection agencies and creditors to achieve either debt settlement, debt consolidation or set up a debt management plan," said a CAC spokesperson. "The services provided by the credit counseling industry are the cornerstone of a strong financial foundation for consumers and we are extremely proud to have the opportunity to assist consumers throughout Orlando, FL with fixing and rebuilding their credit so they can achieve financial independence."

Credit Advisors Council has an excellent reputation of providing clients with much needed financial assistance, credit and debt counseling that allows them to meet, head on and conquer, life's financial and credit related challenges. Through their work, they have helped struggling American consumers to properly manage their finances, create economic and financial stability and allow them to gain access to opportunities that will help them reach their financial goals.

The Credit Advisors Council's credit repair experts provide comprehensive services and represent their clients with compassion, integrity, honesty, knowledge and experience they have acquired by working on all types of credit and financial issues such as credit counseling, credit repair, building credit, debt settlement, student loan consolidation and forgiveness, identity theft and financial literacy.

Credit Advisors Council provides assistance on any and all credit matters concerning debts from lenders, credit cards, auto loans, student loans, collection agencies and others. Their credit experts review a client's credit report for derogatory or negative information that is reporting inaccurately, erroneously and non-compliantly and can address these issues with the credit bureaus and protect a consumer's rights through various strategies including credit disputes, requests for validation or verification and complaints for violations of FCRA, FDCPA and other consumer protection statutes.

For inquiries and consultations, Credit Advisors Council can be contacted at their office located at 1 Orange Ave Suite 502, Orlando, FL 32801 or by reaching out via phone at (844) 811-4110. Online inquiries can be made via email bryan@creditadvisorscouncil.com or by visiting the credit repair company's website at <https://www.creditadvisorscouncil.com/credit-services/credit-repair/>.
