

EX-20 Electric Pencil Sharpener by EcoElectronix Offers Unique Features

January 18, 2019

January 18, 2019 - PRESSADVANTAGE -

Electric pencil sharpeners are not considered a new product, but the features available on some of them are. For instance, EcoElectronix a popular Amazon based company that specialized in home office supplies has an adjustable sharpness feature in all of their electric pencil sharpeners.

The adjustment feature can be used to change the sharpness of the pencil inserted. The dial can change the sharpness from extra-sharp to multiple levels of bluntness with ease. EcoElectronix customers have reported enjoying this setting in their Amazon reviews. One of their customers stated, 'I've never used an electric sharpener but since I needed a sharpener I wanted to finally try one. I used it to sharpen my newly bought Prismacolor Col-erase pencils and it works quickly and sharpens well! Also, I love the fact that you can adjust the sharpness with the dial on the side of the sharpener. If you need a compact sharpener that works well, I recommend this.'

Another function that EcoElectronix popular EX-20 has is an auto-off light indicator. The built-in LED light indicates when a pencil is completely sharpened and automatically shuts off the motor when the selected sharpness is reached. An EcoElectronix customer reported loving the auto light feature and the customer

service. ?Great product! Very fast sharpener and I love the auto-stop feature once the pencil is sharp. Customer service is fantastic! Original order had a glitch where it didn't always turn off after pencil was removed (something I could've easily lived with).. and I simply informed them of the issue and they immediately sent me a free replacement, which works perfectly.?

For use as a school pencil sharpener in classrooms and around children, EcoElectronix insured the EX-20 have a safety setting installed that will prevent the sharpener from working if any part of the assembly is missing. This allows the pencil sharpener to be used by kids with minimal supervision, perfect for busy classrooms.

The EX-20 automatic pencil sharpener is available for purchase through Amazon.com for \$24.73 and includes a lifetime warranty that covers anything from defects to damage. To find out more about EcoElectronix, readers can visit their website.
