Chandler, Arizona based Great Choice Chiropractic (GCC) is pleased to announce that they are now offering Zerona, a non-invasive, healthy, and effective alternative weight loss treatment that addresses stubborn fats on key areas, such as the waist, hips, thighs and arms.

“Whether you are a new mom, a weekend warrior, an athlete, or a bride-to-be, GCC can help you reach your ideal figure in no time. Zerona is the only clinically tested and painless red laser treatment that provides significant weight loss without the risk of surgery and long recovery downtime. Moreover, in as little as one week, you should be able to see noticeable and measurable results,” says Dr. Greg Hauser of Great Choice Chiropractic.

As noted on their website, Zerona is the only FDA approved medical procedure for the circumferential reduction of the waist, hips, thighs, and upper arms. It works by using a low-level laser that fires at a wavelength of 635nm, emitting no heat at all. In addition to this, it is clinically proven to be safe and effective as it also underwent a number of accredited Level 1 clinical trials. Furthermore, results show that Zerona users have lost an average of 3.64 inches (on targeted areas) during the first trial and 3.72 inches during the

second treatment. More information concerning the results of the clinical trials can be found at <https://greatchoicechiro.com/fat-loss/>.

Aside from modern weight loss solutions, GCC also specializes in providing chiropractic treatments to address chronic symptoms such as back aches, neck pains, and headaches. Their certified physicians also provide advanced pediatric chiropractic treatments and Activator Method's Chiropractic Technique (AMCT) that can address more serious conditions, including disc pain, carpal tunnel syndrome, and sciatica. Furthermore, they strive to provide their patients with specialized and individualized treatments depending on their specific needs.

"We are an advocate of using natural, non-invasive, and alternative medical treatments and procedures to promote healthy digestion, control blood pressure, boost immune function, improve reproductive health, and speed-up the body's natural healing process. Chiropractic treatments, in most cases, are even more effective in reducing pain when compared to some over-the-counter or prescribed medications. It can also assist in the relief and treatment of a number of health and body issues," Hauser added.

When I first met Dr. Hauser, he immediately made me feel more comfortable and at ease. He explained all of his diagnostic procedures and walked me through all of his plans on how to make my pain go away. After the treatment, I immediately feel better than I had in years. He was also very thorough in explaining how I can maintain and improve my spinal care when I am at home. I highly recommend GCC and I know I will become one of their many long term patients."

He applied Activator Method's Chiropractic Technique (AMCT) in my sessions, which has been a great method for me.
