

BPI Sports Canada Adds First Line Nutrition of Edmonton as Their Newest Dealer

January 23, 2019

January 23, 2019 - PRESSADVANTAGE -

BPI Sports, a Canadian based sports nutrition company, has just announced that they have now partnered with First Line Nutrition Edmonton to distribute their products. First Line Nutrition will have access to the entire line of sports nutritional supplements that BPI Sports packages. That includes their popular Ketogenic weight loss line of sports supplements.

John Messenger, a representative for BPI Sports, discussed why they were excited to bring First Line Nutrition of Edmonton on board with them. He says, "First Line Nutrition is certainly no stranger to the sports nutrition business. They are already a fully established supplements center that carries sports nutritional products that help with everything from energy maintenance to fat burning. Our products such as nutritional water enhancers and ketogenic weight loss supplements will fit in naturally with what they are already doing."

First Line Nutrition is an independently owned nutritional supplements company that is practitioner based. That means those that visit them know they are getting sound advice when it comes to general and sports nutritional supplements. Their wide range of nutritional supplements includes detoxification products, joint support, and of course their pre and post workout sports nutrition products. They even feature a variety of

children's health supplements, probiotics, and vitamins. First Line nutrition has a private health clinic onsite where they offer various screenings for their customers that will help guide them to the nutritional and wellness supplements that will benefit them the most.

BPI Sports Canada now has another established distributor to offer their sports and wellness products in an important Canadian population center. It keeps with the company's vision of having their sports nutrition supplements reach and benefit as many people as possible. Messenger elaborated a little about what their end goal is for those that use their nutritional supplements. He says, "BPI Sports was built on the unique understanding of what unites us all; that's the desire to be better versions of ourselves. We like our clients to look beyond the supplements and products, getting straight to the core of what helps them to be successful and to feel better while on that path to success. Our nutritional supplements certainly can be an important part of their journey and help them have the healthy energy to get to where they want to be in life."

Messenger also stated that the company promises that they will only deliver the best and highest-quality fitness supplements. This includes such products as their Keto Bomb creamer that goes great with tea or coffee and their Best Creatine which is designed to help with muscle mass and performance. They even offer pre-workout sports supplements such as One More Rep, 1MR Vortex and Best Pre Workout. Other fitness supplements that they offer are designed to target such nutritional areas as weight loss, post-workout recovery, performance enhancement and adding more beneficial protein into the bodies of those that need it.

Their latest store dealership in Edmonton comes on the heels of them announcing that BPI Sports Canada opens new dealer with Boss Supplements in Barrie. Messenger stated that he was very pleased that even more people throughout Canada now have access to their complete line of sports-related nutritional supplements and other wellness products.

For more information on BPI Sports Canada or the many health supplement products that they offer, one can simply refer to their website. There they can find such things as detailed information about the key ingredients in each product they sell and the latest monthly deals that the company is offering on its sports nutritional supplements. There is even a tab someone can click on to help themselves create their own customized workout plan; this customized workout plan creator can be used by both men and women. All of BPI Sports Canada's nutritional products have their prices clearly listed and can be ordered direct from their website too.

Company representatives can also be reached by phone and email if anyone seeks more information about any of the products they sell.
